*Central Asian Security* Roy Allison, Lena Jonson, 2004-05-13 This volume is the first comprehensive scholarly analysis of the strategic reconfiguration of Central Asia as Russia has become more disengaged from the nations in the region and as these nations have developed new relations to the south east and west The international implications are enormous because of the rich energy sources oil and natural gas located in the Caspian Sea area The authors assess a variety of internal security policy challenges confronting these states for example the potential for conflict arising from such factors as a mixed ethnic population resource scarcity particularly in relation to water management and an Islamic revival They also examine the security policy content of relations between the Central Asian states and regional and international powers specifically the stakes interests and policies of Russia China Iran Turkey and the United States These internal challenges and the evolution of relations with external powers may result in new cooperative relationships but they may also lead to destabilizing rivalry and interstate enmity in Central Asia It is important to identify new patterns of relevance for future security cooperation in the region but the potential for a new security system or for new institutions to manage security in the region remains uncertain These issues are explored by a team of prominent specialists from Western Europe the United States Russia and China

**Kyrgyzstan - Regime Security and Foreign Policy** Kemel Toktomushev, 2016-10-04 Kyrgyzstan is an interesting example of a relatively weak state which for its brief period of independence has already ousted two presidents experienced two revolutions survived two interethnic conflicts and yet remained intact This book explores this apparent paradox and argues that the schism between domestic and international dimensions of state and regime security is key to understanding the nature of Kyrgyz politics The book shows how the foreign

policy links to the Manas Air Base used by the US military and essential for supplying their forces in Afghanistan the economic arrangements necessary for sustaining the base both inside and outside Kyrgyzstan and the myriad of different actors involved in all this combined to overshadow points of friction to ensure stable continuance of the status quo Overall the book shows how broad geopolitical forces and complex local factors together have a huge impact on the formation of Kyrgyz foreign policy

**The New Central Asia** Emilian Kavalski, 2010 This book focuses on Central Asia's place in world affairs and how international politics of state building has affected the Asian region thus filling the gaps in ongoing discussions on the rise of Asia in global governance It also attempts to generalize and contextualize the Central Asian experience and re evaluate its comparative relevance by explaining the complex dynamics of Central Asian politics through a detailed analysis of the effects of major international actors both international organizations as well as current and rising great powers Publisher's description

*Tajikistan in the New Central Asia* Lena Jonson, 2006-08-25 Central Asia has become the battleground for the major struggles of the 21st century radical Islam versus secularism authoritarianism versus identity politics Eastern versus Western control of resources and the American War on Terror Nowhere are these conflicts more starkly illustrated than in the case of Tajikistan Embedded in the oil rich Central Asian region and bordering war torn Afghanistan Tajikistan occupies a geo strategically pivotal position It is also a major transit hub for the smuggling of opium which eventually ends up in the hands of heroin dealers in Western cities In this timely book Lena Jonson examines Tajikistan's search for a foreign policy in the post 9 11 environment She shows the internal contradictions of a country in every sense at the crossroads reconciling its bloody past with an uncertain future She assesses the impact of regional developments on the reform movement in Tajikistan and in turn examines how changes in Tajik society which is the only Central Asian country to have a legal Islamist party might affect the region The destiny of Tajikistan is intimately connected with that of Central Asia and this thorough and penetrating book is essential reading for anyone seeking to make sense of this complex and important region

**New Central Asia, The: The Regional Impact Of International Actors** Emilian Kavalski, 2010-01-15 This book focuses on Central Asia's place in world affairs and how international politics of state building has affected the Asian region thus filling the gaps in ongoing discussions on the rise of Asia in global governance It also attempts to generalize and contextualize the Central Asian experience and re evaluate its comparative relevance by explaining the complex dynamics of Central Asian politics through a detailed analysis of the effects of major international actors both international organizations as well as current and rising great powers

*Analysing Kazakhstan's Foreign Policy* Luca Anceschi, 2020-03-16 This book investigates the roles that ideas and constructs associated with Eurasia have played in the making of Kazakhstan's foreign policy during the Nazarbaev era This book delves into the specific Eurasia centric narratives through which the regime headed by Nursultan Nazarbaev imagined the role of post Soviet Kazakhstan in the wider Eurasian geopolitical space Based on substantive fieldwork and sustained engagement with primary sources the book unveils the power implications of

Kazakhstani neo Eurasianism arguing that the strengthening of the regime's domestic power ranked highly in the list of objectives pursued by Kazakhstani foreign policy between the collapse of the Soviet Union and Nazarbaev's apparent withdrawal from the Kazakhstani political scene 19 March 2019 This book ultimately is a study of inter state integration which makes use of a rigorous methodological approach to assess different incarnations of post Soviet multilateralism from the Commonwealth of Independent States to the more recent and highly controversial Eurasian Economic Union This book offers a ground breaking analysis of Kazakhstani foreign policy in the Nazarbaev era It will be of interest to students and scholars of Central Asian Politics International Relations and Security Studies **Global Water Security** World Water Council,2018-02-02 This book highlights the relationship between the water sector and various other sectors in order to establish an improved understanding of the importance of water resources as an essential cross cutting vector of socio economic development The book is both policy and practice oriented and is not constrained by existing definitions on water security It includes actual experiences of policy management development and governance decisions taken within the water sector and examples on how these have affected the energy and agricultural sectors as well as impacted the environment and vice versa as appropriate It also discusses trade offs short and long term implications lessons learnt and the way forward The book includes case studies on cities countries and regions such as Australia China Singapore Central Asia Morocco Southern Africa France Latin America Brazil and California **Symbolism and Power in Central Asia** Sally Cummings,2013-09-13 With the collapse of communism post communist societies scrambled to find meaning to their new independence Central Asia was no exception Events relationships gestures spatial units and objects produced conveyed and interpreted meaning The new power container of the five independent states of Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan would significantly influence this process of signification Post Soviet Central Asia is an intriguing field to examine this transformation a region which did not see an organised independence movement develop prior to Soviet implosion at the centre it provokes questions about how symbolisation begins in the absence of a national will to do so The transformation overnight of Soviet republic into sovereign state provokes questions about how the process of communism turned nationalism could become symbolised and what specific role symbols came to play in these early years of independence Characterized by authoritarianism since 1991 the region's ruling elites have enjoyed disproportionate access to knowledge and to deciding what how and when that knowledge should be applied The first of its kind on Central Asia this book not only widens our understandings of developments in this geopolitically important region but also contributes to broader studies of representation ritual power and identity This book was published as a special issue of Europe Asia Studies Globalization and Conflict Robert G. Patman,2006-08-10 This volume highlights the gap between the new security environment and the notion of state centred national security favoured by Washington showing how a Cold War phenomenon known as the national security state in which defence and foreign policy interests essentially converge remains largely intact The

conventional wisdom since the suicide attacks of 9 11 is that the world has been transformed and according to President Bush September 11 changed the strategic thinking of the US This book challenges these assumptions Indeed the Bush administration s National Security strategy of 2002 has reinvigorated and even extended the idea of national security Paradoxically the renewed emphasis on a distinctly state centred approach to security including the War on Terror has unfolded during an era of deepening globalization Drawing on the international expertise of fourteen specialists the book examines four inter related themes the impact of globalization on the concept of security the strategic outlook of the world s only superpower the US the new conflicts that have come to characterize the post Cold War era efforts to regulate the emerging patterns of conflict in the world Globalization and Conflict will be essential reading for students of strategic studies security studies and international relations *In the Tracks of Tamerlane* Daniel L. Burghart, Theresa Sabonis-Helf, 2004

**Central Asia and the Rise of Normative Powers** Emilian Kavalski, 2012-10-15 This book offers a unique analytical investigation of the international politics of the EU China and India in the context of their security strategies in Central Asia It shows how the interaction between these three actors is likely to change the frameworks and practices of international relations This is studied through their interactions with central Asia using the framework of normative powers and the concept of regional security governance Briefly a normative power shapes a target state s attitudes and perceptions as it internalizes and adopts the perspectives of the normative power as the norm The work comparatively studies the dynamics that have allowed Beijing Brussels and New Delhi to articulate security mechanisms in Central Asia and become rising normative powers This innovative study does not aim to catalog foreign policies but to uncover the dominant perceptions cognitive structures and practices that guide these actors regional agency as exemplified through the context of Central Asia It will be an essential resource for anyone studying international relations international relations theory and foreign policy analysis *China and International Institutions* Marc Lanteigne, 2005-11-14 China has shifted its foreign policy from one that avoided engagement in international organizations to one that is now embracing them These moves present a new challenge to international relations theory How will the global community be affected by the engagement of this massive global power with international institutions This new study explores why China has chosen to abandon its previous doctrine of institutional isolation and details how it is currently unable to balance American power unilaterally and details an indirect path to greater power In addition it includes the first major analysis of the Shanghai Cooperation Organization comprising China Russia and most of Central Asia In contrast to many works on the rise of China question which place an emphasis on her material goods and powers this book delivers a new approach It shows how the unique barriers Beijing is facing are preventing the country from taking the traditional paths of territorial expansion and political economic domination in order to develop as a great power One of these barriers is the United States and its inherent military and economic strength The other is the existence of nuclear weapons which makes direct great power conflict unacceptably costly China has therefore

opted for a new path using institutions as stepping stones to great power status This book will be of great interest to students and scholars of international relations world politics world history and Asia *Central Asia* Ajay Patnaik,2025-08-01

Throughout history Central Asia has served as an important strategic link between the East and the West This book locates Central Asia within the broader geopolitics of the Eurasian region which has witnessed many significant shifts conflicts and events while tracing its strategic importance The book looks at the relations between the Central Asian states and major external powers and shows how it has kept away from the so called New Great Game It evaluates the roles of major powers such as Russia the United States China Iran and Turkey as well as India and its Silk Road strategy It also compares the regional geopolitics of Central Asia with its neighbour Caucasus The author highlights how despite limited interstate cooperation the region has balanced foreign powers and has largely prevented conflicts thereby enjoying greater strategic autonomy in dealing with other countries This new revised edition with additional chapters explores new developments the Russia Ukraine war and the future of Central Asian geopolitics The book will benefit scholars and researchers of
