Encyclopedia of Associations ,2006-12 *Encyclopedia of Associations V1 National Org 46 Pt2* ,2008-04 Surgical Technology for the Surgical Technologist Paul Price, Kevin B. Frey, Teri L. Junge, Association of Surgical Technologists, 2004
This new edition meets the requirements of the revised Core Curriculum for Surgical Technologists 5th edition. It is written by surgical technologists for surgical technologists. The content focuses on the concepts and skill development cognitive and procedural required of surgical technologists in the operative environment. The text uses the A POSitive CARE approach to surgical problem solving that concentrates on the ability of the surgical technologist to predict the patient's and surgeon's needs through the intraoperative period. The goal is for the surgical technologist to apply this model in daily practice for maximum efficiency and effectiveness during the surgical procedure. The surgical procedures included in the text were selected for their instructive value and because the skills demonstrated can be applied to many other procedures.

National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1972. First multi year cumulation covers six years 1965-70 Surgical Technology for the Surgical Technologist Bob Caruthers, Teri L. Junge, Association of Surgical Technologists, 2001. This new text is written by surgical technologists and surgical technology educators with over 50 years of combined experience in the field. The only text written specifically for the surgical technologist, it focuses on the knowledge and cognitive skills required of the surgical technologist. It introduces the A Positive Care Approach, a systematic approach to intraoperative problem solving that focuses on the ability of the surgical technologist serving in the traditional role called first scrub to predict the surgeon's and patient's needs. Features: Meets the Association of Surgical Technologists Core Curriculum for Surgical Technology 4th edition. Surgical procedures are presented by surgical speciality in a consistent illustrative format throughout the text that helps students develop a pattern for learning procedures. Objectives reflect the CARE and APOS acronyms. Memory tools for systematic problem solving. Case studies and questions for further study in each chapter apply concepts learned and stimulate critical thinking. The color insert provides an overview of select anatomic systems and illustrates practical aspects of surgical technology. Pearls of Wisdom tips from the author's experience help the student maintain a practical focus on the procedure.
