

## Product components

- Centricity Enterprise Archive (EA) provides a multilogic and multisite clinical content repository, enabling consolidation of IT infrastructure for archiving and managing unstructured medical content (images, reports, documents and so on) using DICOM and XDS.
- Centricity Universal Viewer Zero Footprint (ZFP) is a zero footprint clinician viewer providing anywhere anytime access (where internet connection is available) to patient clinical records for care providers.
- XDS Registry is an integrating the Healthcare Enterprise (IHE) compliant registry that stores the catalog of patient clinical information.
- NextGate MatchMatrix enterprise master patient index (EMPI) is used to link patient identifiers across multiple clinical information systems and create a commonly known patient identifier for each patient.
- Lexmark PACS Scan is an interface engine to connect nonstandard devices and systems to store data in the content repository (EA) using either DICOM or IHE XDS.
- Centricity Clinical Gateway provides the messaging interface engine which allows clinical information systems such as HIS, RIS, and so on to insert and update medical content in the content repository (EA) and in the EMPI.
- Audit Trail Repository receives audit messages from the other components of the Centricity Clinical Archive solution through IHE-compliant interfaces based on the IHE Audit Trail and Node Authentication (ATNA) profile.
- Media Manager supports the acquisition, classification, and storage of non-DICOM images in Centricity Clinical Archive using mobile devices at the bedside and other patient care locations.
- Patient Consent Manager supports the creation of electronic consent documents, a digital representation of the patient's consent to a specific privacy policy. These consent documents are stored in the XDS Document Repository and can be used to control access to all of the patient's documents known to the XDS document registry.
