

Forward Voicemail to Email

CenturyLink®

This enhancement to your CenturyLink Voice Mail service lets you listen to and manage your voice messages on your computer – whenever and wherever you're online. Incoming voicemails are sent to your preferred email address, attached as a .WAV file that can be handled like any other email message: forward it to someone else, reply via voice or email, save the message to your computer, or file it for reference. You can choose to automatically forward all your messages to email, or choose specific messages to forward individually.

Set up Autoforwarding of ALL Voicemails

- Log in to My Account at <https://team.centurylink.com/team/login.do>. Use the same CenturyLink user name and password you already have. If you haven't set up a My Account profile yet, click the **Enroll Now** button.
- From your management console, choose **Message Services** in the left column, then click **Manage Voicemail** under **Smart Connect** from the window in the middle.
- On the Voicemail management screen, click **Settings** in the top right, then the **Messaging** tab, and **Settings** again below that.
- In the **Voicemail Auto-Forwarding** box:
 - Click the top bar to **Auto-Forward all voicemail messages as emails**.
 - Enter the email address that you want all your voicemails forwarded to.
 - Decide whether you want to leave a copy of the forwarded message in your phone's voicemail inbox.
- Make sure to click **APPLY** when you're done.

Remember this page is only for use on a PC. To manage your phone-based voicemail, use the CenturyLink service.

Click **OK** to return to the My Account page. If you plan to transfer all your voicemails completely through your email, the auto-forwarding you selected in your phone's settings will no longer be necessary.

Click **OK** to return to the My Account page. If you plan to transfer all your voicemails completely through your email, the auto-forwarding you selected in your phone's settings will no longer be necessary.
