

Forward Voicemail to Email

CenturyLink®

This enhancement to your CenturyLink Voice Mail service lets you listen to and manage your voice messages on your computer – whenever and wherever you're online. Incoming voicemails are sent to your preferred email address, attached as a .WAV file that can be handled like any other email message: forward it to someone else, reply via voice or email, save the message to your computer, or file it for reference. You can choose to automatically forward all your messages to email, or choose specific messages to forward individually.

Set up Autoforwarding of ALL Voicemails

- Log in to My Account at <https://team.centurylink.com/team/login.do>. Use the same CenturyLink user name and password you already have. If you haven't set up a My Account profile yet, click the **Enroll Now** button.
- From your management console, choose **Message Services** in the left column, then click **Manage Voicemail** under **Smart Connect** from the window in the middle.
- On the Voicemail management screen, click **Settings** in the top right, then the **Messaging** tab, and **Settings** again below that.
- In the **Voicemail Auto-Forwarding** box:
 - Click the top bar to **Auto-Forward all voicemail messages as emails**.
 - Enter the email address that you want all your voicemails forwarded to.
 - Decide whether you want to leave a copy of the forwarded message in your phone's voicemail inbox.
- Make sure to click **APPLY** when you're done.

Remember this page is only for use on a PC. To manage your phone's voicemail and other CenturyLink services:

☞ Click **9-4-48 FROM 800** to see your voicemail messages in your phone system, as well as in your email. The speed-dial button **Message Waiting** (voicemail on your phone, or you with free cellular input) also rings and/or flashes brightly when your phone's voicemail has messages.

☞ Click **9-4-48 FROM 800** to see if you plan to transfer all your voicemail completely through your email. The **Auto-Forward** bar indicates if your phone's voicemail and new messages will not trigger the **Message Waiting** status in message light.
