**A Tyranny for the Good of its Victims** Andrew F. Puzder,2025-01-14 Former CEO of CKE Restaurants Inc Andrew F Puzder exposes how the secretive consolidation of financial power under the guise of ESG represents a new collectivist threat to the free market Over the last thirty five years asset manager mega giants BlackRock State Street and Vanguard have accumulated unprecedented levels of stock ownership in virtually every major US company Voting the shares they hold for clients allows these companies to force their own environmental social and governance or ESG agenda on the American corporate sector and by extension on all of us An asset manager s traditional duty is to maximize returns for its investors but these financial elites expand their duties through stakeholder capitalism the idea that a company is responsible not only for its actual shareholders but for everyone who is affected by the company which translates to everyone in the community Thus they can impose their preferred ESG goals under the guise of benefitting an amorphous group of non investors a group that has no say over whether ESG goals actually benefit them This elite dominated economic system is nothing more than socialism in sheep s clothing ESG defines the champagne socialist agenda that would devastate the working and middle classes globally Now in the face of rising opposition these financial elites are suddenly rebranding shifting their terminology to conceal their intent **A Tyranny for the Good of its Victims** exposes how although they may abandon the acronym ESG these elites have pursued and will continue to pursue their ESG goals to transform our consumer driven free market economy into one that is subject to their elitist demands overriding the will of the people whom they deem incapable of self government
