Great American Catholic Eulogies Carol DeChant, 2012-09-15 Eulogies have a long and important history in remembering and commemorating the dead As Thomas Lynch notes in his Foreword eulogies are meant to speak for the ages to bring homage and appreciation the final appraisal the last world and first draft of all future biography In Great American Catholic Eulogies Carol DeChant has compiled fifty of the most memorable and instructive eulogies of and by Catholics in America The eulogies span the American experience from those who were born

before the Declaration of Independence was written to a modern sports legend from pioneers in social justice healthcare and the arts to founders of distinctly American religious order and from all the varied ethnic cultures who contribute to the great cultural milieu that is the United States Books and Reading in the Lives of Notable Americans John

McCrossan, 2000-03-30 Books and reading have contributed to the success of generations of Americans many of whom have had distinguished careers and have left their mark on history While the accomplishments of these notable Americans are well known their adventures with books and reading are less familiar Some have struggled to gain access to books while others were fortunate enough to be exposed to literature at an early age This reference surveys the role books and reading have played in the lives of notable Americans from colonial times to the present Included are alphabetically arranged entries for 50 notable Americans from a range of historical periods professions and racial and ethnic backgrounds Many are featured prominently in school and college texts while others are a significant part of popular culture Such diverse figures as Benjamin Franklin Helen Keller Willa Cather Kareem Abdul Jabbar Mark Twain Oprah Winfrey and Ronald Reagan are covered Each entry includes a discussion of books and reading in the person's life a chronology and a brief bibliography

The Rhetorical Career of Cesar Chavez John C. Hammerback, Richard J. Jensen, 2003-04 Although born into one of the least powerful segments of American society Cesar Chavez led the farm labor movement to unprecedented heights His powerful effect on audiences is well known but award winning scholars John C Hammerback and Richard J Jensen offer the first explanation of how Chavez achieved that effect Although other studies of Chavez exist none has examined so thoroughly his rhetoric nor analyzed in depth such a large number of Chavez's own texts scores of which have previously been unstudied Chavez was an indefatigable speaker writer and non discursive communicator who developed a well thought out approach to his rhetorical discourse and placed his speaking and writing at the very center of his career By merging thought and character in his themes arguments and explanations and in his first and second personae Chavez was able to identify with the character of his listeners That identification induced many audience members to support Chavez's agenda for union activism The authors have developed a model to help explain Chavez's startling transformation of some audiences and persuasion of others Hammerback and Jensen reveal that Chavez's world view motivated him to work tirelessly and directed him to the particular rhetorical qualities and techniques that characterized his discourse The authors also demonstrate Chavez's surprising effectiveness as a rhetor despite his soft spoken style uncharacteristic of most powerful orators *The Struggle in Black and Brown* Brian D Behnken, 2012-01-01 It might seem that African Americans and Mexican Americans would have common cause in matters of civil rights This volume which considers relations between blacks and browns during the civil rights era carefully examines the complex and multifaceted realities that complicate such assumptions and that revise our view of both the civil rights struggle and black brown relations in recent history Unique in its focus innovative in its methods and broad in its approach to various locales and time periods the book provides key perspectives to understanding the

development of America's ethnic and sociopolitical landscape. These essays focus chiefly on the Southwest where Mexican Americans and African Americans have had a long history of civil rights activism. Among the cases the authors take up are the unification of black and Chicano civil rights and labor groups in California; divisions between Mexican Americans and African Americans generated by the War on Poverty; and cultural connections established by black and Chicano musicians during the period. Together, these cases present the first truly nuanced picture of the conflict and cooperation, goodwill and animosity, unity and disunity that played a critical role in the history of both black-brown relations and the battle for civil rights. Their insights are especially timely as black-brown relations occupy an increasingly important role in the nation's public life.

Latinos in the American Political System Jessica L. Lavariega Monforti, 2019-03-14. This encyclopedia provides a comprehensive overview of the evolution of Hispanic Americans engaged in U.S. politics from increased visibility as governors and other lawmakers at the local, state, and federal levels to their growing importance as a voting constituency. This encyclopedia comprehensively surveys the evolution of Latino engagement in U.S. politics as voters, candidates, lawmakers, and public officials. It is an authoritative resource for public library patrons, high school students, and undergraduates in a variety of curricular studies including political science, civics, American history, and Latino studies. The set's A-Z entries were carefully selected and crafted to ensure thorough coverage of all of the individuals, organizations, cultural forces, political issues, and legal decisions that have combined to elevate the role of Latinos at the polls, on the campaign trail in Washington, and in mayors' offices, city councils, school boards, and statehouses all across the country. In-depth essays on the rising prominence of Latino Americans as voters, candidates, public officials, lawmakers, and opinion leaders will provide further context for understanding their impact on modern U.S. political processes and institutions from the perspective of liberals and conservatives alike.

Not Just Black and White Nancy Foner, George M. Fredrickson, 2004-04-22. Immigration is one of the driving forces behind social change in the United States, continually reshaping the way Americans think about race and ethnicity. How have various racial and ethnic groups, including immigrants from around the globe, indigenous racial minorities, and African Americans, related to each other both historically and today? How have these groups been formed and transformed in the context of the continuous influx of new arrivals to this country? In *Not Just Black and White*, editors Nancy Foner and George M. Fredrickson bring together a distinguished group of social scientists and historians to consider the relationship between immigration and the ways in which concepts of race and ethnicity have evolved in the United States from the end of the nineteenth century to the present. *Not Just Black and White* opens with an examination of historical and theoretical perspectives on race and ethnicity. The late John Higham, in the last scholarly contribution of his distinguished career, defines ethnicity broadly as a sense of community based on shared historical memories, using this concept to shed new light on the main contours of American history. The volume also considers the shifting role of state policy with regard to the construction of race and ethnicity. Former U.S. census director Kenneth Prewitt provides a definitive account of how racial

and ethnic classifications in the census developed over time and how they operate today Other contributors address the concept of panethnicity in relation to whites Latinos and Asian Americans and explore socioeconomic trends that have affected and continue to affect the development of ethno racial identities and relations Joel Perlmann and Mary Waters offer a revealing comparison of patterns of intermarriage among ethnic groups in the early twentieth century and those today The book concludes with a look at the nature of intergroup relations both past and present with special emphasis on how America's principal non immigrant minority African Americans fits into this mosaic With its attention to contemporary and historical scholarship Not Just Black and White provides a wealth of new insights about immigration race and ethnicity that are fundamental to our understanding of how American society has developed thus far and what it may look like in the future
