The Arab Spring, Civil Society, and **Innovative Activism** Cenap Çakmak, 2016-12-09 This book investigates the role of society groups in the making of the Arab Spring and under which conditions they attained their goals Democracy and recognition of human rights and fundamental freedoms seem to be the main drives of the people organized in form of civil groups or grassroots movements in the Arab Spring countries but it is essential to identify when they find it suitable to take such extreme action as taking the streets in an attempt to take down the repressive regimes It is also important to investigate what methods they relied on in their action and how they challenged the state and the government A review of the cases in this volume shows that civil society has certain limitations in its action Analysis of the cases also challenges a commonly held assumption that the Arab world does not have strong and rich civil society tradition However for a lasting success and consolidation of democracy something more than civil society action is obviously needed A strong organized opposition and a democratic culture seems to be

indispensable elements for the evolution of a democratic order and tradition The New Spirit of Islamism Ezgi Basaran, 2024-05-02 This book explains the aspirations and concerns of Islamist actors in the aftermath of the Arab Uprisings by looking at two sets of relationships between Turkey's ruling AKP and the Egyptian Muslim Brotherhood and the AKP and Tunisia's Ennahda It presents a unique analysis of the interplay between the AKP Ennahda and the Muslim Brotherhood characterizing the actors the structure and the main features of the relationship and thereby illuminating a political confluence among these three critical Islamist entities in the aftermath of the Arab Uprisings Existing scholarship has assumed that this relationship revolves primarily around an ideological Islamist agenda however this research demonstrates a more complex and nuanced situation Ezgi Basaran puts forward that the interplay was not based on an aspiration of building an ideological Islamist bloc in the MENA region but rather revolved around the concept of political success and had a strong neoliberal ethos Basaran draws on data collected from over 60 interviews with high level members of the AKP Ennahda and Muslim Brotherhood to demonstrate how in the hope of achieving success and legitimization Ennahda and the Muslim Brotherhood have relied on the managerial prescriptions provided by the AKP The contents of this success formula were derived from the AKP s experience as an Islamist party in power since 2002 and includes tactics on crisis evasion legitimization winning elections and maintaining power The Small Gulf States Khalid Almezaini, Jean-Marc Rickli, 2016-12-08 Small states are often believed to have been resigned to the margins of international politics However the recent increase in the number of small states has increased their influence and forced the international community to incorporate some of them into the global governance system This is particularly evident in the Middle East where small Gulf states have played an important role in the changing dynamics of the region in the last decade The Small Gulf States analyses the evolution of these states foreign and security policies since the Arab Spring With particular focus on Oman Qatar and the United Arab Emirates it explores how these states have been successful in not only guaranteeing their survival but also in increasing their influence in the region It then discusses the security dilemmas small states face and suggests a multitude of foreign and security policy options ranging from autonomy to influence in order to deal with this The book also looks at the influence of regional and international actors on the policies of these countries It concludes with a discussion of the peculiarities and contributions of the Gulf states for the study of small states foreign and security policies in general Providing a comprehensive and up to date analysis of the unique foreign and security policies of the states of the Gulf Cooperation Council GCC before and after the Arab Spring this book will be a valuable resource for students and scholars of Middle East studies foreign policy and international relations The Politics of the Past: The Representation of the Ancient Empires by Iran's Modern States Maryam Dezhamkhooy, Leila Papoli-Yazdi, 2018-12-31 This book examines the highly problematic politics of the past surrounding the archaeology of ancient empires in Iran Discussing their personal and professional experiences the authors exemplify the real ethical dilemmas that archaeologists confront in the Middle East

Shifting Priorities in Russia's Foreign and Security Policy Rémi Piet, Roger E. Kanet, 2016-03-09 Given the resurgence of Russian economic capabilities and of Russia's role as a regional even global political actor much of the literature written more than 4 5 years ago is already dated The editor and contributors to this timely volume draw upon a broad range of analysts who deal with various aspects of Russian relations with its neighbours to the West and to the East Implications for Russian foreign and security policy are key to understanding Russia's position in the 21st Century Readers in Russian foreign and security policy European Eurasian and Asian security and contemporary international politics security will find this volume invaluable *Violence and the state* Matt Killingsworth, Matthew Sussex, Jan Pakulski, 2015-11-01 In providing a counterweight to the notion that political violence has irrevocably changed in a globalised world Violence and the state offers an original and innovative way in which to understand political violence across a range of discipline areas It explores the complex relationship between the state and its continued use of violence through a variety of historical and contemporary case studies including the Napoleonic Wars Nazi and Soviet eliticide the consolidation of authority in modern China post Soviet Russia and international criminal tribunals It also looks at humanitarian intervention in cases of organised violence and the willingness of elites to alter their attitude to violence if it is an instrument to achieve their own ends The

Great War vividly illustrating that these campaigns were no less costly tragic and important than the catastrophes of the Somme Verdun and Passchendaele The massive offensives on the Eastern Front during 1915 are too often overshadowed by the events in Western Europe but the scale and ferocity of the clashes between Imperial Germany Habsburg Austria Hungary and Tsarist Russia were greater than anything seen on the Western Front and ultimately as important to the final outcome of the war With the Russians hamstrung by weak supply lines and the Austro Hungarian leadership committed to a strategy of offensive drives despite diminishing manpower and adverse terrain the fighting in early 1915 was a costly and futile exercise By the summer the Central Powers increasingly dominated by Germany had begun to gain the advantage but even the Gorlice Tarn w Offensive of 1915 which ultimately resulted in the retreat of Russian forces from Poland failed to bring the conflict to a conclusion Now with the work of internationally renowned Eastern Front expert Prit Buttar this fascinating story is finally being told From the bitter fighting in the Carpathian Mountains to the sweeping advances through Serbia and the almost medieval battle for the fortress of Przemysl this is a staggeringly ambitious history of some of the most important moments of the First World War National Library Service Cumulative Book Review Index, 1905-1974: Authors. **[A-Z** National Library Service Corporation, 1975 Britain, Egypt, and Irag during World War II Stefanie Wichhart, 2021-08-26 This book explores the tumultuous war years through the lens of the British Embassies in Cairo and Baghdad demonstrating the role that the Second World War played in shaping the political and social map of the contemporary Middle East The war served as a catalyst for seismic changes in Arab society and the emergence of new movements that provided powerful critiques of British intervention and of the governments that facilitated it making the war a critical turning point in Britain's empire in the Middle East
