**The Parent Revolution** Dr. Corey A. DeAngelis, 2024-05-14 From the leader of the online army in America's parental rights movement comes the real story of how moms and dads across the country are turning the tide against radical activists in public schools It's no secret that our government run public education system has held generations of Americans hostage The teachers unions the government's stormtroopers have been hard at work running a mass misinformation campaign to convince parents that because this is how it has always been this is how it has to be But here's what you may not realize the parents are winning and we have entered the death spiral of the education dictatorship The school choice revolution is here and moms and dads are successfully restoring parental rights in education one state one school district at a time In The Parent Revolution Dr Corey A DeAngelis public enemy 1 of the teachers unions takes readers inside this movement like no one else can As Vox reported in late 2023 DeAngelis has become the public face of the effort traveling from state to state holding rallies making media appearances and tweeting constantly Or as another education voice put it No one in education policy advocacy or activism has ever lived rent free in more heads at once than Corey DeAngelis As America's most prominent and influential advocate of school choice DeAngelis unapologetically argues why parents and political leaders must lean into the culture war taking place in schools He exposes the hypocritical elites who are content to hold other people's children captive to poorly run government schools while sending their own children to the best private and charter schools out there And most importantly he equips readers with the ability to make sure the potent forces of the educational industrial complex don't regain their footing

**Occupying the Academy** Christine Clark, Kenneth J. Fasching-Varner, Mark Brimhall-Vargas, 2012-08-02 In the wake of the election of President Obama many diversity scholars and practitioners imagined that renewed commitments to educational equity and justice were just around the corner Unfortunately the opposite has become the Obama era reality Across the country equity and diversity workers at all levels in university and

colleges but especially Chief Diversity Officers in public institutions are under assault Is this assault a result of a premeditated and carefully calculated conservative political agenda or the unfortunate consequence of how largely white politically conservative and the power bases they represent are expressing their anger about the changing racial landscape in the United States This volume explores and deconstructs the reasons for this assault from various perspectives This volume also illustrates how the national assault on equity and diversity has resulted in a continuum At one end are diversity friendly institutions that are benignly neglecting equity diversity efforts because of state budget crises At the other end of the spectrum are the deliberate efforts being made to systematically dismantle equity and diversity work in especially politically conservative states

**Legally Straight** Joe Rollins, 2018 Argues that cultural conceptions of children and childhood played a key role in legalizing gay marriage Legally Straight offers a critical reading of the legal debates over lesbian and gay marriage in the United States The book draws on key judicial opinions to trace how our understanding of heterosexuality and marriage has changed Upon closer inspection it seemed that the cultural value of marriage was becoming tarnished and the trouble appeared to center on one very specific issue reproduction As opponents of lesbian and gay marriage emphasized the link between marriage and accidental pregnancy the evidence mounted the arguments proliferated and resistance began to turn against itself Heterosexuality it seemed for a moment was little more than a set of palliative prescriptions for the worst of human behavior and children became the victims It thus became the province of the courts to reinforce the cultural value of marriage by resisting what came to be known as the procreation argument the assertion that marriage exists primarily to regulate the unruly aspects of heterosexual reproduction Cultural conceptions of children and childhood were being put at risk as gays and lesbians were denied marriage so that writing lesbian and gay families into the marriage law became the better option
