Critische Vlugschriften:

Kritische Bibliographie der Flugschriften zur deutschen Verfassungsfrage, 1848-1851 Paul Wentzcke, 1911

Protestants and the Cult of the Saints Carol Piper Heming, 2003-08-01 The role of the saints became a theological dilemma for scholars and laity alike throughout the Reformation era As Protestants tried to remove themselves from the hold of the Catholic Church the cult of the saints remained a formidable presence Through the analysis of 180 pamphlets published by reformers in German speaking Europe Carol Heming shows the struggle Protestants faced in purging the cult of the saints from their culture and religion Heming examines why Reformation leaders so strongly and universally denounced the cult of the saints and whether the holy patrons disappeared from Protestant areas without benefit of champion or defender Complete scriptural references used in the pamphlets against the saints and images are included *Print Markets and Political Dissent in Central Europe* James M. Brophy, 2024-06-13 Moving book history in a new direction this study examines publishers as brokers of Central Europe s political public sphere They created international print markets translated new texts launched new journals supported outspoken authors and experimented with popular formats Most of all they contested censorship with finesse and resolve thereby undermining the aim of Prussia and Austria to criminalize democratic thought By packaging dissent through popular media publishers cultivated broad readerships promoted political literacy and refashioned citizenship ideals As political actors intellectual midwives and cultural mediators publishers speak to a broad range of scholarly interests Their outsize personalities their entrepreneurial zeal and their publishing achievements portray how print markets shaped the political world The narrow perimeters of political communication in the late absolutist states of Prussia and Austria curtailed the open market of ideas The publishing industry contested this information order working both within and outside legal parameters to create a modern public sphere Their expansion of print markets their cat and mouse game with censors and their ingenuity in packaging political commentary sheds light on the production and reception of dissent Against the backdrop of censorship and police surveillance the successes and failures of these citizens of print tell us much about nineteenth century civil society and Central Europe s tortuous pathway to political modernization Cutting across a range of disciplines this study will engage social and political historians as well as scholars of publishing literary criticism cultural studies translation and the public sphere The history of Central Europe s print markets between Napoleon and the era of unification doubles as a political tale It sheds important new light on political communication and how publishers exposed German language readers to the Age of Democratic Revolution *Constitutions of Nations Volume Ii France to New Zealand* , **Die kirchenkritische Tendenz in den deutschsprachigen Flugschriften der frühen Reformationszeit** Susanne Ritter, 1970 Essays in legal history read before the International Congress of Historical Studies held in London in 1913 Paul Vinogradoff, 1913 *Progressive Library Organizations* Alfred Kagan, 2015-04-09 This work presents the history and impact of the seven most important progressive library organizations worldwide in Austria

Germany South Africa Sweden United Kingdom and two in the United States Each organization is considered within its national context and in fact the English word organization does not quite fit the nature of all of the groups The South African organization LIWO was transitional in that it helped bring South African librarianship from apartheid to majority rule and then disbanded The other organizations or their successors are still working in one form or another Some of the organizations have had or continue to have vibrant local chapters though many of the original activists have recently retired or died The author has interviewed many of them at a time when they were assessing their life work and handing off to new generations

The Eucharistic Pamphlets of Andreas Bodenstein von Karlstadt ,2011-03-01 Andreas Bodenstein von Karlstadt played a key role in the development of the evangelical understanding of the Lord s Supper In 1521 he wrote several pamphlets urging a reform of the Mass In 1524 he broke with Martin Luther and published a second group of pamphlets rejecting the traditional belief in Christ s corporeal presence in the Eucharist Despite the importance of Karlstadt s tracts they are little known today and his understanding of the Lord s Supper is often reduced to a caricature For the first time Amy Nelson Burnett translates his thirteen pamphlets into English illuminating Karlstadt s importance for the Reformation debate over the Eucharist and his contribution to what would become Reformed sacramental theology

Literarische und kritische blätter der Börsen-Halle ,1844 Antifraternalism and Anticlericalism in the German Reformation Geoffrey Dipple,2016-12-05 Many of the leading figures of the Reformation and many of their most able opponents came from among the ranks of the Franciscan Order This Order became the focus of attack in a pamphlet war waged against it in 1523 by converts to the Reformation These criticisms were based on arguments by Luther in his Judgement on Monastic Vows and the pamphlets provided an important channel for these views Luther s arguments were also reinforced by criticisms of the mendicant orders drawn from medieval polemical and satirical literature The campaign of 1523 brought together both Reformation and pre Reformation anticlerical themes In this book Geoffrey Dipple looks at the perception of the Franciscan order in the 15th and 16th centuries placing the attacks firmly in the context of late medieval inter clerical rivalries He looks particularly at the anticlerical polemics of one of the primary participants Johann Eberlin von G nzburg the most vocal of the Franciscan s critics **Kritischer Rückblick auf Herrn J. Chr. Berberts kritische**

Beleuchtung des Seitenstückes zur Weisheit Dr. Martin Luthers Maximilian Precht,1818 The Early Reformation in Germany Tom Scott,2016-03-23 Over the last twenty years research on the Reformation in Germany has shifted both chronologically and thematically toward an interest in the long or delayed Reformations and the structure and operation of the Holy Roman Empire Whilst this focus has resulted in many fascinating new insights it has also led to the relative neglect of the early Reformation movement Put together with the explicit purpose of encouraging scholars to reengage with the early storm years of the German Reformation this collection of eleven essays by Tom Scott explores several issues in the historiography of the early Reformation which have not been adequately addressed The debate over the nature and function

of anticlericalism remains unresolved the mainsprings of iconoclasm are still imperfectly understood the ideological role of evangelical doctrines in stimulating and legitimising popular rebellion above all in the German Peasants War remains contentious while the once uniform view of Anabaptism has given way to a recognition of the plurality and diversity of religious radicalism Equally there are questions which initially broached have then been sidelined with undue haste the failure of Reforming movements in certain German cities or the perception of what constituted heresy in the eyes of the Reformers themselves and not least the part played by women in the spread of evangelical doctrines Consisting of seven essays previously published in scholarly journals and edited volumes together with three new chapters and an historical afterword Scott's volume serves as a timely reminder of the importance of the early decades of the sixteenth century By reopening seemingly closed issues and by revisiting neglected topics the volume contributes to a more nuanced understanding of what the Reformation in Germany entailed *Bulletin of the Public Library of the City of Boston* Boston Public Library, 1914

The Viennese Revolution of 1848 R. John Rath, 2013-12-18 Liberalism in the nineteenth century sense of the term came to Austria much later than it came to western Europe for it was not until the 1840s that the industrial revolution reached the Hapsburg Empire bringing in its train miserable working conditions and economic upheaval which created bitter resentment among the working classes and a longing for a Utopia that would cure the ills of mankind This new found liberalism largely self contained and uninfluenced by liberal movements outside the empire centered mainly in the idea of individual freedom and constitutional monarchism In the end the revolution failed because the moderates proved too weak to control the radical excesses and the radicals in growing desperation tried to turn the rebel idea into a democratic and at the extreme a republican one Fear of this extremism finally drove the moderates into the counterrevolutionary camp Since the Viennese rebels fought to achieve many of the goals fundamental to democracy historians have generally tended to idealize the revolutionaries and forget their shortcomings R John Rath has sought to evaluate the revolution from the point of view of the political ideologies of 1848 rather than those of the mid twentieth century Moreover he has clearly and objectively stated the case for both the left and the right pointing out the failures and shortcomings of each At its publication this was the first detailed English language book on the Viennese Revolution of 1848 in more than a hundred years The author has not confined himself to the bare bones of history In his descriptions of the times and lively portrayals of the chief actors of the revolution he has vividly restaged a drama of an ideal that failed *Guide to Reprints*, 2009

Droysen and the Prussian School of History Robert Southard, 2021-12-14 The Prussian School of History first predicted and advocated then celebrated and defended the unification of Germany by Prussia Experts in German historiography and the history of German liberalism have often complained about the lack of a book in any language that traces the origins and explains the ideas of this school of history Here is that book Robert Southard finds that for the Prussian School history had an agenda These historians generally expected history to complete its main tasks in their own time and country The outcome of their

politics was really an end of history not a cessation to historical occurrences but a cessation of onward historical movement because the historical process had already achieved its long term beneficent purposes Leading us through the intricacies of important but untranslated works of J G Droysen Max Duncker Rudolph Hayn and Heinrich von Sybel Southard demonstrates their belief that the historical sequence was a continual unfolding of God s plan Indispensable for those interested in the history of German historical writing this book also has major implications for understanding the history of political liberalism

Restoration, Revolution, Reaction Theodore S. Hamerow, 2016-03-30 A study of the economic and social changes which shaped the movement for German unification The author emphasizes the effect of industrialism on urban life traces the decline of manorialism in agriculture and seeks to show that the political movements of these years were profoundly influenced by the economic transition from agrarianism to capitalism

Debating the Sacraments Amy Nelson Burnett, 2019 Debating the Sacraments argues that Reformation debates concerning baptism and the Lord s Supper cannot be treated in isolation It demonstrates the continuing influence of Erasmus on Luther s evangelical opponents and examines the role of printing in fanning the public controversy over the sacraments Provided by publisher

Ein anderer Blick: Saul Aschers politische Schriften Bernd Fischer, 2016-04-18 Angaben zur beteiligten Person Fischer Bernd Fischer ist Professor für deutsche Literatur Kultur und Ideengeschichte an der Ohio State University Seine Veröffentlichungen beschäftigen sich u a mit ästhetischen und philosophischen Schichtungen von nationalen transkulturellen und Anerkennungstheoretischen Identitätsformationen

Geschichte Der Politischen Parteien in Deutschland Ludwig Bergsträsser, 1928
