Cromwell Portrait Soldier John Gillingham:

Cromwell: Portrait of a Soldier John Gillingham, 2015-12-07 Oliver Cromwell was more than just a fine soldier. A man of outstanding gifts and forceful intellect, he saw more keenly than any other Civil War general the need for a new kind of warfare. He saw that the rules of seventeenth-century warfare as practised on the continent were inappropriate to conditions in England, and with a politician's eye he saw the importance of bringing the war to a swift conclusion. Decisive in seeking battle and ruthless in pursuit, Cromwell's aggressive Napoleonic style of warfare quickly established his reputation as a military commander of genius. The early years of the Civil War witnessed not only his military apprenticeship, for unlike most of his colleagues and opponents he had no experience of war, but also the forging of the instrument with which the Civil War was won. The cavalry regiments of the Eastern Association and the New Model Army were largely Cromwell's work. With these hand-picked, well-trained and disciplined troops, Cromwell was possessed of an advantage denied to otherwise skilled commanders like Waller. Soldier, politician, statesman, Cromwell is most frequently compared with Caesar and Napoleon. All of them, in the last resort, owed their rise to their military skill. In Cromwell's case, given the circumstances of the first forty years of his life, this was an extraordinary, almost inexplicable talent. But like it or not, this pious, slovenly, middle-aged country gentleman came to live by the sword. John Gillingham is Emeritus Professor of Medieval History at the London School of Economics and Political Science. On 19 July 2007 he was elected into the Fellowship of the British Academy. He is renowned as an expert on the Angevin empire. His other titles include *The Wars of the Roses*. Endeavour Press is the UK's leading independent publisher of digital books.

Cromwell's Masterstroke Peter Reese, 2006-11-10 The author of *Bannockburn* recounts the New Model Army's upset victory in 17th-century Scotland that cemented Oliver Cromwell's military reputation. The victory at Dunbar of Oliver Cromwell's New Model Army over the Scots under David Leslie in 1650 merits a major place in the long succession of Anglo-Scottish battles. The Scots had brought Cromwell's invading army to its knees, but Cromwell took the offensive and in one of the great upsets of military history the Scots army was routed. The triumph secured Cromwell's reputation as the outstanding general of the age and demonstrated the toughness and flair of the New Model Army. He commanded Peter Reese's exciting account of this extraordinary battle is the first full-length study to be published. Praise for Peter Reese's works of Scottish history: An admirably vivid account. *The Scotsman*. Reads like a novel yet has the authority of many a weightier tome. *Sunday Herald*.

A bibliography of British military history Anthony Bruce, 2016-12-19 No detailed description available for *A bibliography of British military history*.

The Military and Society in Russia, 1450-1917 Eric Lohr, Marshall Poe, 2002-11-01 This book explores the interaction of the Russian military and society in the early modern and modern period. In contrast to straightforward military histories, the volume is concerned with the myriad political, economic, and cultural currents that shaped the Russian armed forces from their beginnings in Muscovite times to the end of World War I. The book begins with an attempt by the editors to provide a large frame in which to place the various contributions.

What follows are three topical sections including 22 detailed often archival based monographic articles The first section concerns The Military and Society in Muscovy the second section focuses on The Military and Society in Imperial Russia The third part analyzes Patriotism Nationality Religion and the Military *Medieval Warfare 1000-1300* John France, 2017-05-15

The study of medieval warfare has developed enormously in recent years The figure of the armoured mounted knight who was believed to have materialized in Carolingian times long dominated all discussion of the subject It is now understood that the knight emerged over a long period of time and that he was never alone on the field of conflict Infantry at all times played a substantial role in conflict and the notion that they were in some way invented only in the fourteenth century is no longer sustainable Moreover modern writers have examined campaigns which for long seemed pointless because they did not lead to spectacular events like battles As a result we now understand the pattern of medieval war which often did not depend on battle but on exerting pressure on the opponent by economic warfare This pattern was intensified by the existence of castles and careful study has revealed much about their development and the evolving means of attacking them Crusading warfare pitted westerners against a novel style of war and affords an opportunity to assess the military effectiveness of European methods New areas of study are now developing The logistics of medieval armies was always badly neglected while until very recently there was a silence on the victims of war Assembled in this volume are 31 papers which represent milestones in the development of the new ideas about medieval warfare set in context by an introductory essay *International Politics and Warfare in the Age of Louis XIV and Peter the Great* William Young, 2004 The Peace of Westphalia 1648 ending the Thirty Years War resulted in the rise of the modern European states system However dynasticism power politics commerce and religion continued to be the main issues driving International politics and warfare Dr William Young examines war and diplomacy during the Age of Louis XIV and Peter the Great His study focuses on the later part of the Franco Spanish War the Wars of Louis XIV and the Anglo Dutch Wars in the West In addition the author explores the wars of the Baltic Region and East Europe including the Thirteen Years War Second Northern War War of the Holy League and the Great Northern War The study includes a guide to the historical literature concerning war and diplomacy during this period It includes bibliographical essays and a valuable annotated bibliography of over six hundred books monographs dissertations theses journal articles and essays published in the English language *International Politics and Warfare in the Age of Louis XIV and Peter the Great* is a valuable resource for individuals interested in the history of diplomacy warfare and Early Modern Europe

Anglo-Norman Warfare Matthew Strickland, 1992 Articles fundamental to the study of warfare in England and Normandy in the 11th and 12th centuries collected here in one volume The influence of war on late Anglo Saxon and Anglo Norman society was dominant and all pervasive Here in this book gathered together for the first time are fundamental articles on warfare in England and Normandy in the 11th and 12th centuries combining the work of some of the foremost scholars in the field Redressing the tendency to study military institutions and obligations in isolation from the practice of war equal

emphasis is given both to organisation and composition of forces and to strategy tactics and conduct of war The result is not only an in depth analysis of the nature of war itself but a study of warfare in a broader social political and cultural context The Themes dealt with largely span the period of the Conquest offering an assessment of the extent to which the Norman invasion marked radical change or a degree of continuity in the composition of armies and in methods of fighting This important collection with an introduction and select bibliography will be essential not simply for the student of medieval warfare but for all studying Anglo Norman society and its ruling warrior aristocracy whose raison d'être was war Contributors NICHOLAS HOOPER MARJORIE CHIBNALL J C HOLT J O PRESTWICH R ALLEN BROWN JOHN GILLINGHAM JIM BRADBURY MATTHEW STRICKLAND MATTHEW BENNETT Oliver Cromwell: Oxford Bibliographies Online Research Guide Oxford University Press, 2010-06-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related This ebook is a static version of an article from Oxford Bibliographies Online Renaissance and Reformation a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com **European War and Diplomacy, 1337-1815** William Young, 2003-10 The history of international relations and warfare of early modern Europe has gained popularity in recent years This bibliography provides a valuable listing of books dissertations and journal articles in the English language for scholars and general readers interested in diplomatic relations and warfare from the Hundred Years War to the Napoleonic Wars **Historical Dictionary of the Puritans** Charles Pastoor, Galen K. Johnson, 2007-06-12 Members of the Church of England until the mid 16th century the Puritans thought the Church had become too political and needed to be purified While many Puritans believed the Church was capable of reform a large number decided that separating from the Church was their only remaining course of action Thus the mass migration of Puritans known as Pilgrims to America took place Although Puritanism died in England around 1689 and in America in 1758 Puritan beliefs such as self reliance frugality industry and energy remain standards of the American ideal The Historical Dictionary of Puritans tells the story of Puritanism from its origins until its eventual demise This is done through a chronology an introduction a bibliography and several hundred cross referenced dictionary entries on important people places and events **A New History of Cromwell's Irish Campaign** Philip G. McKeiver, 2007 The Stories of Cromwell in Ireland are the stuff of Myths and Legends This book factually disputes some of

the spin and legend created about Cromwell in Ireland and reflects some of interests of the parties involved It shows that some of the controversy surrounding Cromwell is to say the least not factually based and perhaps may be biased reflecting the opinions of the Catholic Church Rich and wealthy landowners and the Governments of England Ireland This book although sympathetic to the Parliamentary cause bases its arguments on the factual historiography of the time rather than the myths and legends that were created and developed to support alternative views and perspectives One of the main points ignored by most historians is the commercial view taken by Cromwell in not killing Irish people but rather selling them into Slavery in the English Colonies of America to repay the Treasury to offset the costs of the Wars in Ireland

The A to Z of the Puritans Charles Pastoor, Galen K. Johnson, 2009-09-28 Members of the Church of England until the mid 16th century the Puritans thought the Church had become too political and needed to be purified While many Puritans believed the Church was capable of reform a large number decided that separating from the Church was their only remaining course of action Thus the mass migration of Puritans known as Pilgrims to America took place Although Puritanism died in England around 1689 and in America in 1758 Puritan beliefs such as self reliance frugality industry and energy remain standards of the American ideal The A to Z of Puritans tells the story of Puritanism from its origins until its eventual demise This is done through a chronology an introduction a bibliography and several hundred cross referenced dictionary entries on important people places and events

God's General Simon Robbins, 2003

The Stuart Age Barry Coward, 1980

Creative Thinking in Warfare Brigadier J Nazareth, In his book Brig Nazareth sets out to dispel the notion that war is too serious an affair to be left to military men He traces the history of war from more than 3000 years ago to the present day and explores the minds of military leaders through their contribution to the success or failure of a war In the game of war he says there is no second prize and crucial decisions have to be taken sometimes instantaneously in chaotic even deceptive circumstances The author attributes a vital role to the military commander who in addition to being technically proficient must also be sensitive to the needs of his men He makes a study of creativity and interprets it for us in military terms The book is profusely illustrated with photographs of well known military leaders figures which explain the process of creative thinking and maps and sketches of combat areas
