have to be slightly psychopathic to make movies David Cronenberg This compendium contains more than 3 400 quotations from filmmakers and critics discussing their craft About 1 850 film people are included Bunuel Capra Chaplin Disney Fellini Fitzgerald Griffith Kael Kurasawa Pathe Sarris Schwarzenegger Spielberg Waters and Welles among them The quotations are arranged under 31 topics such as acting animation audience budget casting critics costume design directing locations reviews screenwriting special effects and stardom Indexing by filmmakers or critics by film titles and by narrow subjects provides a rich array of points of access The Films of Johnny Depp William B. Parrill, 2017-02-10 Since his rise to fame in the television series 21 Jump Street in 1987 and his subsequent transition to film acting Johnny Depp has received constant criticism for his choice of roles at least until his popular turn in the Pirates of the Caribbean series This book aims to reveal the ways in which Depp's choices of film roles though often considered eccentric allowed him to develop into the representative film actor of his time It organizes all of Depp's films chronologically narrating in the process his transition from underestimated teenage pretty boy to bona fide Hollywood hotshot Along the way the book addresses Depp's relationship to earlier film actors especially to Marlon Brando and the silent comics the influence of Depp s androgynous sexuality on both his choice of roles and his acting and his relationships with directors Terry Gilliam and Tim Burton Cult Film Stardom K. Egan, S. Thomas, 2012-11-06 The term cult film star has been employed in popular journalistic writing for the last 25 years but what makes cult stars distinct from other film stars has rarely been addressed This collection explores the processes through which film stars actors become associated with the cult label from Bill Murray to Ruth Gordon and The Fly Emma Westwood, 2018-11-06 This book teases out the DNA of David Cronenberg's reimagining of The Ingrid Pitt Fly 1986 Drawing from interviews with cast crew commentators and other filmmakers Emma Westwood interlaces the making of travails of The Fly with why it is one of the most important works ever committed to screen Film Steffen Hantke, 2010-09-30 Creatively spent and politically irrelevant the American horror film is a mere ghost of its former self or so goes the old saw from fans and scholars alike Taking on this undeserved reputation the contributors to this collection provide a comprehensive look at a decade of cinematic production covering a wide variety of material from the last ten years with a clear critical eye Individual essays profile the work of up and coming director Alexandre Aja and reassess William Malone's much maligned Feardotcom in the light of the torture debate at the end of President George W Bush's administration Other essays look at the economic social and formal aspects of the genre the globalization of the US film industry the alleged escalation of cinematic violence and the massive commercial popularity of the remake Some essays examine specific subgenres from the teenage horror flick to the serial killer film and the spiritual horror film as well as the continuing relevance of classic directors such as George A Romero David Cronenberg John Landis and Stuart Gordon Essays deliberate on the marketing of nostalgia and its concomitant aesthetic and on the curiously schizophrenic perspective of fans who happen to be scholars as well Taken together the contributors to this collection make a compelling case that American

horror cinema is as vital creative and thought provoking as it ever was **Directing** William Irish, 2014-08-08 Fifty years of communication experience described in a book that contains the how to s of film direction forty questions and answers on the subject of directing and forty five true stories about production and executions Written and illustrated by an award winning veteran of Canada s communication industry Inner Paths to Outer Space Rick Strassman, Slawek Wojtowicz, Luis Eduardo Luna, Ede Frecska, 2008-03-27 An investigation into experiences of other realms of existence and contact with otherworldly beings Examines how contact with alien life forms can be obtained through the inner space dimensions of our minds Presents evidence that other worlds experienced through consciousness altering technologies are often as real as those perceived with our five senses Correlates science fiction s imaginal realms with psychedelic research For thousands of years voyagers of inner space spiritual seekers shamans and psychoactive drug users have returned from their inner imaginal travels reporting encounters with alien intelligences Inner Paths to Outer Space presents an innovative examination of how we can reach these other dimensions of existence and contact otherworldly beings Based on their more than 60 combined years of research into the function of the brain the authors reveal how psychoactive substances such as DMT allow the brain to bypass our five basic senses to unlock a multidimensional realm of existence where otherworldly communication occurs They contend that our centuries old search for alien life forms has been misdirected and that the alien worlds reflected in visionary science fiction actually mirror the inner space world of our minds The authors show that these alien worlds encountered through altered states of human awareness either through the use of psychedelics or other methods possess a sense of reality as great as or greater than those of the ordinary awareness perceived by our five senses **Toronto New Wave cinema and** the anarchist-apocalypse David Christopher, 2025-06-10 The Toronto New Wave TNW comprises a group of avant garde filmmakers working in Canada from the 1980s and into the new millennium whose innovative film works share significant affinities with anarchist themes and aesthetics Several of the TNW filmmakers openly identify as anarchists and or acknowledge a debt to anarchism in their production of highly apocalyptic narratives as part of their cinematic political projects However recognition of anarchism's progressive apocalyptic theoretical relevance has yet to be substantially taken up by scholarship in cinema analysis This analysis introduces an anarchist inflected analytical methodology to understand the apocalyptic revelatory political work these films attempt to accomplish in the perceptual space between the filmic texts and both their auteurs and potential viewers and to re locate the TNW within cinema history as an ongoing phenomenon with new significance in an apocalyptic era of digital distribution Media Review Digest C.
