Crossroads Urban Christian:

China's Urban Christians Brent Fulton, 2016-12-29 China's Urban Christians A Light that Cannot Be Hidden looks at how massive urbanization is redrawing not only the geographic and social landscape of China but in the process is transforming China's growing church as well. The purpose of this book is to explore how Christians in China perceive the challenges posed by their new urban context and to examine their proposed means of responding to these challenges. Although not primarily political in nature, these challenges nonetheless illustrate the complex interplay between China's Christian community and the Chinese party state as it comes to terms with the continued growth and increasing prominence of Christianity in modern China. **Publication**, 1991 **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986**, 1987 **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954** United States. Internal Revenue Service, 2002 *Miniature Codices in Early Christianity* Michael J. Kruger, 2025-06-07 While there has been renewed scholarly interest in paratextual features of early Christian manuscripts, that interest has rarely extended to the size of manuscripts, particularly the format known as the miniature codex. Such neglect is surprising given that this miniature format was a notable part of early Christian textual culture, emerging as early as the second century and visible well into the seventh century and beyond. So established was this format among Christians during this period that C. H. Roberts once surmised incorrectly that the miniature codex would seem to be a Christian invention. Many of these tiny books were elegant, well-crafted, and could contain a surprising number of pages. Currently, we have over 60 such codices which contain a wide range of Christian literature, including New Testament books, patristic and non-canonical writings, e.g., the Didache, Acts of Paul, and apocryphal gospels, and even liturgical ritual texts. This volume is the first full-length monograph on the phenomenon of the miniature codex, offering a framework for distinguishing miniature codices from other tiny texts, e.g., amulets, exploring their practical and iconic functions, and perhaps most importantly, assembling a detailed catalogue of all known Christian and Greek miniature codices. This distinctive book format provides an essential window into the textual, literary, and visual culture of early Christianity, shedding fresh light on how and why Christians were considered people of the book. Ngo Strategies by Christians to Change the World Warner Woodworth Ph.D., 2023-05-11 Want to change the world? This book shares stories and practical ways that as Christians, we can help to reduce human suffering in many developing nations. It admonishes all of us as children of God to reduce the suffering of others, empower the poor, and take innovative actions to improve society by applying our faith and brains, as well as financial resources. God anointed his Son with the Holy Spirit and power, and Jesus went around doing good. Acts 10:38 and we should follow his example. He didn't merely suggest that we serve the world's have-nots; He commanded us to do so. Utilizing the best and most impactful solutions that exist in this book, I draw on the labors of love carried out by many U.S. Christians to offer the world's poor not merely a handout but an empowering hand up. The book inspires readers with amazing stories of

washing the feet of lepers in India aiding earthquake victims in Haiti using microloans to help the Native American poor as Jesus would do and laboring to assist survivors in rebuilding after the horrific Asian tsunami crisis plus much more **The Urban World and the First Christians** Steve Walton,Paul Trebilco,David W. J. Gill,2017 In the tradition of *The First Urban Christians* by Wayne Meeks this book explores the relationship between the earliest Christians and the city environment Experts in classics early Christianity and human geography analyze the growth development and self understanding of the early Christian movement in urban settings The book s contributors first look at how the urban physical cultural and social environments of the ancient Mediterranean basin affected the ways in which early Christianity progressed They then turn to how the earliest Christians thought and theologized in their engagement with cities With a rich variety of expertise and scholarship *The Urban World and the First Christians* is an important contribution to the understanding of early Christianity

Pettegrew,William Rodney Caraher,Thomas W. Hopeful Realism in Urban Ministry Barry K. Morris,2016-05-20 What pray tell does a faithful urban ministry require if not a triadic relationship of prayer justice and hope Could such a theologically conjunctive relationship of prayer justice and hope fortify urban ministry and challenge students and practitioners to ponder and practice beyond the box Frequently justice is collapsed to charity hope into wishful thinking or temporarily arrested despair and prayer a grasp at quick fix interventions An urban ministry s steadfast public and prophetic witness longs for the depth and width of this triad Via three countries decades of endeavors one chapter brainstorms urban ministry practices while another s literature survey signals crucial convictions Amid many seminal theologians are summoned to ground urban ministry intimations and implications Niebuhr on justice Moltmann on hope and Merton on contemplative prayer Evident is passion that fuels compassion in the service of justice hope that engages despair and prayer that draws from the contemplative center of it all thankful resources

Interrupting the Church's Flow Al Barrett, 2020-10-30 How can we develop and embody an ecclesiology in contexts of urban marginality that is radically receptive to the gifts and challenges of the agency of our non Christian neighbours Drawing on resources from political theologies and in particular conversation with Graham Ward and Romand Coles this book challenges our lazy understanding of receptivity digging deep to uncover a rich theological seam which has the potential to radically alter how theologians think about what we draw from urban places It offers a game changing liberative theology rooted not in the global south but from a position of self critical privilege
