**Celtic religion in pre-Christian times** E. Anwyl, 2006

**Celtic Religion in Pre-Christian Times** Sir Edward Anwyl, 2020-09-28 In dealing with the subject of Celtic Religion the first duty of the writer is to explain the sense in which the term Celtic will be used in this work It will be used in reference to those countries and districts which in historic times have been at one time or other mainly of Celtic speech It does not follow that all the races which spoke a form of the Celtic tongue a tongue of the Indo European family were all of the same stock Indeed ethnological and arch ological evidence tends to establish clearly that in Gaul and Britain for example man had lived for ages before the introduction of any variety of Aryan or Indo European speech and this was probably the case throughout the whole of Western and Southern Europe Further in the light of comparative philology it has now become abundantly clear that the forms of Indo European speech which we call Celtic are most closely related to those of the Italic family of which family Latin is the best known representative From this it follows that we are to look for the centre of dissemination of Aryan Celtic speech in some district of Europe that could have been the natural centre of dissemination also for the Italic languages From this common centre through conquest and the commercial intercourse which followed it the tribes which spoke the various forms of Celtic and Italic speech spread into the districts occupied by them in historic times The common centre of radiation for Celtic and Italic speech was probably in the districts of Noricum and Pannonia the modern Carniola Carinthia etc and the neighbouring parts of the Danube valley The conquering Aryan speaking Celts and Italians formed a military aristocracy and their success in extending the range of their languages was largely due to their skill in arms combined in all probability with a talent for administration This military aristocracy was of kindred type to that which carried Aryan speech into India and Persia Armenia and Greece not to speak of the original speakers of the Teutonic and Slavonic tongues In view of the necessity of discovering a centre whence the Indo European or Aryan languages in general could have radiated Eastwards as well as Westwards the tendency to day is to regard these tongues as having been spoken originally in some district between the Carpathians and the Steppes in the form of kindred dialects of a common speech Some branches of the tribes which spoke these dialects penetrated into Central Europe doubtless along the Danube and from the Danube valley extended their conquests together with their various forms of Aryan speech into Southern and Western Europe

In Search of Ancient Ireland Carmel McCaffrey,Leo Eaton,2003-06-11 This engaging book traces the history archaeology and legends of ancient Ireland from 9000 B C when nomadic hunter gatherers appeared in Ireland at the end of the last Ice Age to 1167 A D when a Norman invasion brought the country under control of the English crown for the first time So much of what people today accept as ancient Irish history Celtic invaders from Europe turning Ireland into a Celtic nation St Patrick driving the snakes from Ireland and converting its people to Christianity is myth and legend with little basis in reality The truth is more interesting The Irish as the authors show are not even Celtic in an archaeological sense And there were plenty of bishops in Ireland before a British missionary called Patrick arrived But In Search of Ancient Ireland is not simply the story of events from long ago Across Ireland today are festivals places and folk customs that provide a tangible link to events thousands of years past The authors visit and describe many of these places and festivals talking to a wide variety of historians scholars poets and storytellers in the very settings where history happened Thus the book is also a journey on the ground to uncover ten thousand years of Irish identity In Search of Ancient Ireland is the official companion to the three part PBS documentary series With 14 black and white photos 6 b w illustrations and 1 map
