Regímenes políticos en el Mediterráneo antiguo Marcelo Campagno, Julián Gallego, Carlos García Mac Gaw, 2019-03-05 Este estudio busca enriquecer nuestra apreciación de los procesos que conducen de las situaciones anteriores al surgimiento del Estado a la centralización inherente a las estructuras estatales sin perder de vista el papel de los poderes locales El desarrollo de estas organizaciones permite reflexionar sobre la política como dimensión fundamental de las prácticas sociales para lo cual contamos en determinados contextos con las propias observaciones de los antiguos sobre esta esfera de la vida en comunidad Son procesos que también intervienen decisivamente en la configuración de los regímenes políticos las interacciones entre grupos sociales que en algunas sociedades se perciben a partir de elaborados conceptos a punto tal que estas reflexiones siguen alimentando hoy día las discusiones sobre las formaciones gubernamentales Pero la apropiación contemporánea de dichas

nociones para su uso y a veces su brutal abuso no deja de trazar implícita o explícitamente un vínculo con las situaciones históricas en las que las mismas aparecieron. Por otra parte, la dinámica de los regímenes políticos no se desarrolla de manera aislada sin interacción con otras organizaciones. Las guerras expansivas de unos sobre otros es un lugar común en la Antigüedad; la situación se estabiliza si los dominadores son capaces de anular o dar lugar a las reivindicaciones que los subyugados plantean ante la dominación. A veces esto deriva en una crisis de las estructuras de gobierno llevando a la reconfiguración de los regímenes políticos. En estas páginas los lectores hallarán las elucidaciones de los autores sobre estos tópicos y podrán cotejar sus diversas perspectivas, similitudes y diferencias entre las problemáticas históricas así como los marcos teórico metodológicos elegidos. Tendrán en cierto modo la ocasión de reconstruir los estimulantes debates que entre ellos han tenido lugar.

Studies in Greek Lexicography Georgios K. Giannakis, Christoforos Charalambakis, Franco Montanari, Antonios Rengakos, 2018-11-19. This volume presents nineteen studies by specialists in the field of Greek lexicography. A number of papers deal with historical aspects of Greek lexicography covering all phases of the language i.e. ancient, medieval and modern as well as the interrelations of Greek to neighboring languages. In addition, other papers address more formal issues such as morphological, semantic and syntactic problems that are relevant to the study of Greek lexicography as well as the study of individual words. Finally, in one study the problem of technical linguistic terminology is addressed along with the methodological, epistemological and other issues relating to the particular problem. The work is of special interest to scholars on the long-standing problems of diachronic semantics, historical morphology and word formation and to all those interested in etymology and the study of words of the Greek language.

A Prosopography to Martial's Epigrams Rosario Moreno Soldevila, Alberto Marina Castillo, Juan Fernández Valverde, 2019-02-19. A Prosopography to Martial's Epigrams is the first dictionary of all the characters and personal names found in the work of Marcus Valerius Martialis containing nearly 1 000 comprehensive entries. Each of them compiles and analyses all the relevant information regarding the characters themselves as well as the literary implications of their presence in Martial's poems. Unlike other works of this kind, the book encompasses not only real people whose positive existence is beyond doubt but also fictional characters invented by the poet or inherited from the cultural and literary tradition. Its entries provide the passages of the epigrams where the respective characters appear, the general category to which they belong, the full name in the case of historical characters, onomastic information especially about frequency, meaning and etymology, other literary or epigraphical sources, a prosopographical sketch, a discussion of relevant manuscript variants and a bibliography. Much attention is paid to the literary portrayal of each character and the poetic usages of their
