Central African Emergency:

Central African Emergency Clyde Sanger, 1960 A history of the Central African Federation and African Caucasian relations in Rhodesia and Nyasaland Central African Emergency Clyde Sanger (giornalista.), 1960 **Emergencies and Disorder in the European Empires After 1945** R. F Holland, 2012-12-06 Bringing together for the first time leading historians of European decolonization this book is a landmark in the comparative analysis of the fall of the European empires viewed both as a problematic of European policy making and as a formative experience in the development of new states

Europe after Empire Elizabeth Buettner, 2016-03-24 Europe after Empire is a pioneering comparative history of European decolonization from the formal ending of empires to the postcolonial European present Elizabeth Buettner charts the long term development of post war decolonization processes as well as the histories of inward and return migration from former empires which followed She shows that not only were former colonies remade as a result of the path to decolonization so too was Western Europe with imperial traces scattered throughout popular and elite cultures consumer goods religious life political formations and ideological terrains People were also inwardly mobile including not simply Europeans returning home but Asians Africans West Indians and others who made their way to Europe to forge new lives The result is a Europe fundamentally transformed by multicultural diversity and cultural hybridity and by the destabilization of assumptions about race culture and the meanings of place and where imperial legacies and memories live on **The Decline and Fall of the British Empire, 1781-1997** Piers Brendon, 2008-10-28 A WASHINGTON POST BOOK WORLD NOTABLE BOOK After the American Revolution the British Empire appeared to be doomed Yet it grew to become the greatest most diverse empire the world had seen Then within a generation the mighty structure collapsed a rapid demise that left an array of dependencies and a contested legacy at best a sporting spirit a legal code and a near universal language at worst failed states and internecine strife The Decline and Fall of the British Empire covers a vast canvas which Brendon fills with vivid particulars from brief lives to telling anecdotes to comic episodes to symbolic moments **The Lion's Share** Bernard Porter, 2014-06-11 As well as presenting a lively narrative of events Bernard Porter explores a number of broad analytical themes challenging more conventional and popular interpretations He sees imperialism as a symptom not of Britain's strength in the world but of her decline and he argues that the empire itself both aggravated and obscured deep seated malaise in the British economy **Fight or Flight** Martin Thomas, 2014-03-13 Although shattered by war in 1945 Britain and France still controlled the world's two largest colonial empires with imperial territories stretched over four continents And they appeared determined to keep them the roll call of British and French politicians soldiers settlers and writers who promised in word and print at this time to defend their colonial possessions at all costs is a long one Yet within twenty years both empires had almost completely disappeared The collapse was cataclysmic Peaceable transfers of power were eclipsed by episodes of territorial partition and mass violence whose bitter aftermath still lingers Hundreds of millions across four

continents were caught up in the biggest reconfiguration of the international system ever seen In the meantime even the most dogged imperialists who had once stiffly defended imperial rule ultimately bent to the wind of change By the early 1950s Winston Churchill had retreated from his wartime pledge to keep Britain's Empire intact And General de Gaulle who quit the French presidency in 1946 complaining that France's new post war democracy would never hang on to the country's imperial prizes narrowly escaped assassination a generation later after negotiating the humiliating French withdrawal from Algeria Fight or Flight is the first ever comparative account of this dramatic collapse explaining the end of the British and French colonial empires as an intertwined even co dependent process Decolonization gathered momentum not as an empire specific affair but as a global one in which the wider march of twentieth century history played a vital part industrial concentration and global depression World War and Cold War Communism and other anti colonial ideologies mass consumerism and the allure of American popular culture Above all as Martin Thomas shows the internationalization of colonial affairs made it impossible to contain colonial problems locally spelling the end for Europe's two largest colonial empires in less than two decades from the end of the Second World War *The Policing of Politics in the Twentieth Century* Mark Mazower,1997 The role of the police has from its beginnings been ambiguous even janus faced This volume focuses on one of its controversial aspects by showing how the police have been utilized in the past by regimes in Europe the USA and the British Empire to check political dissent and social unrest Ideologies such as anti Communism emerge as significant influences in both democracies and dictatorships And by shedding new light on policing continuities in twentieth century Germany and Italy as well as Interpol this volume questions the compatibility of democratic government and political policing

Visions for Racial Equality Harri Englund,2022-02-17 Focusing on David Clement Scott the head of the Church of Scotland mission in Malawi who came to see Europeans as learners in Africa this innovative book narrates the rise and demise of a unique vision for racial equality in nineteenth century Africa By immersing himself in the vernacular language and institutions Scott developed a theology of reversals to pursue justice in race relations It set him on a collision course with the Church colonial government and the White commercial interests spearheaded by Cecil Rhodes Harri Englund shows how Scott's struggle for justice was as much epistemic as political and spiritual a vision for the future in which White and Black would thrive in their mutual recognition as co knowers From linguistic translation to conflicts over land and taxation from slave trade to personal intimacies Visions for Racial Equality weaves a rich tapestry of themes in the life and times of a little known visionary *OFDA Annual Report* United States. Agency for International Development. Office of U.S. Foreign Disaster Assistance,1996 **State, Foreign Operations, and Related Programs Appropriations for 2018** United States. Congress. House. Committee on Appropriations. Subcommittee on State, Foreign Operations, and Related Programs,2017 **Israel Yearbook on Human Rights, Volume 33 (2003)** Yoram Dinstein,Fania Domb,2004-04-01 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since

1971 is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and the Jewish people The Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English including summaries of judicial decisions compilations of legislative enactments and military proclamations The Articles section of Volume 33 contains articles on Legal Aspects of Emergency Regimes Decolonisation, Identity and Nation in Rhodesia, 1964-1979 David Kenrick,2019-11-02 This book explores concepts of decolonisation identity and nation in the white settler society of Rhodesia now Zimbabwe between 1964 and 1979 It considers how white settlers used the past to make claims of authority in the present It investigates the white Rhodesian state s attempts to assert its independence from Britain and develop a Rhodesian national identity by changing Rhodesia s old colonial symbols and examines how the meaning of these national symbols changed over time Finally the book offers insights into the role of race in Rhodesian national identity showing how portrayals of a timeless black population were highly dependent upon circumstance and reflective of white settler anxieties Using a comparative approach the book shows parallels between Rhodesia and other settler societies as well as other post colonial nation states and even metropolises as themes and narratives of decolonisation travelled around the world *Copper Empire* Larry Butler,2007-10-11 This is a study of the evolving relationship between the British colonial state and the copper mining industry in Northern Rhodesia from the early stages of development to decolonization encompassing depression wartime mobilization and fundamental changes in the nature and context of colonial rule **United States Policy on Angola** United States. Congress. House. Committee on International Relations,1976 **Disaster Assistance in Angola** United States. Congress. House. Committee on International Relations. Subcommittee on International Resources, Food, and Energy,1976 Survival in the 'Dumping Grounds' Laura Evans,2019-05-27 Survival in the Dumping Grounds examines a defining aspect of South Africa s recent past the history of apartheid era relocation While scholars and activists have long recognised the suffering caused by apartheid removals to the so called homelands the experiences of those who lived through this process have been more often obscured Drawing on extensive archival and oral history research this book examines the makings and the multiple meanings of relocation into two of the most notorious apartheid dumping grounds established in the Ciskei bantustan during the mid 1960s Sada and Ilinge Evans examines the local and global dynamics of the project of bantustan relocation and develops a multi layered analysis of the complex histories and ramifications of displacement and resettlement in the Ciskei **The White Man's World** Bill Schwarz,2011-10-27 The White Man s World explores ideas of the white man during the last 100 years of the British Empire Working back from Enoch Powell s Rivers of Blood speech of 1968 it discusses the racial assumptions that accompanied the founding of colonial Australia South Africa and Rhodesia colonies which were popularly known as white men s countries **Code of Federal Regulations** United States. President,2016 Special edition of the Federal Register containing a

codification of documents of general applicability and future effect with ancillaries **White Mineworkers on Zambia's Copperbelt, 1926-1974** Duncan Money, 2021-12-06 Life and work on the Zambian Copperbelt a concentrated industrialised mining region along the border with DR Congo has been a perennial subject for Africanist historians In this book Duncan Money for the first time focusses on the white mineworkers who monopolised skilled jobs on the mines from the 1920s to the 1960s and became one of the most affluent groups of workers on the planet Money argues that this group was a highly mobile global workforce which constituted and saw itself as a racialised working class For much of the twentieth century this white working class moved between mining and industrial centres across and beyond the British Empire and their actions and forms of organisation were strongly influenced by their international connections and by their mobility These transnational connections and the white working class militancy they produced played a crucial role in shaping social categories of race and class on the Copperbelt and determining the evolution of a region which quickly became one of the world s largest sources of copper See inside the book
