**Central-Local Relations in Asian Constitutional Systems** Andrew Harding, Mark Sidel, 2015-12-17 This book examines territorial governance in Asia in the context of central local relations In an era of attempts to deal with issues such as decentralisation conflict involving ethnic and religious enclaves and demands for regional autonomy it is timely to examine central local relations in a pan Asian perspective assessing the attempts in a range of different constitutional systems from Japan to Myanmar to re order constitutional structures for local government The book looks at the constitutional systems for organising central local relations in Asia and attempts to draw conclusions from contemporary experiences *Central-local Relations in Asian Constitutional Systems* Andrew Harding, Mark Sidel, 2015 This book examines territorial governance in Asia in the context of central local relations The book looks at the constitutional systems for organizing central local relations and attempts to draw conclusions from contemporary experiences **Local Governance in Multi-Layered Systems**

Matteo Nicolini, Alice Valdesalici, 2023-11-10 The book provides a comprehensive analysis of local government in federations It fills the gap in current legal research and positions local government in federal studies through the lenses of comparative law adopting a more nuanced approach to local government The book considers the shortcomings between the black letter constitution and its operational rules Whether and how the regime of local government is implemented is more relevant than its formal but ineffective recognition The comparative survey discloses the variety local institutions take in different federal contexts Divided into three parts the book comprises chapters investigating local government in systems that to various degrees have been examined and classified as federal Scholars throughout the world have examined the federal local connection in aggregative federations the USA Canada Switzerland Germany Australia and Austria devolutionary ones Belgium Bosnia Herzegovina Italy Spain the UK Argentina Brazil Mexico and the Russian Federation as well as in federations beyond the West where federalism as a colonial legacy has undergone a process of reinvention affecting the federal local connection South Africa Ethiopia India Nigeria Comoros Democratic Republic of Congo Nepal Palau Federated States of Micronesia St Kitts and Nevis United Arab Emirates and Pakistan *Constitutional Change in the Contemporary Socialist World* Ngoc Son Bui, 2020 Comparative constitutional law has a long and distinguished history in intellectual thought and in the construction of public law As political actors and the people who create or modify their constitutional orders they often wish to learn from the experience and learning of others This cross fertilization and mutual interaction has only accelerated with the onset of globalization which has transformed the world into an interconnected web that facilitates dialogue and linkages across international and regional structures Oxford Comparative Constitutionalism seeks to publish scholarship of the highest quality in constitutional law that deepens our knowledge of local national regional and global phenomena through the lens of comparative public law Book jacket [The Constitution of the United States of America](#) Mark Tushnet, 2015-08-27 This is the second edition of Professor Tushnet s short critical introduction to the history and current

meaning of the United States Constitution It is organised around two themes first the US Constitution is old short and difficult to amend Second the Constitution creates a structure of political opportunities that allows political actors including political parties to pursue the preferred policy goals even to the point of altering the very structure of politics Deploying these themes to examine the structure of the national government federalism judicial review and individual rights the book provides basic information about and deeper insights into the way the US constitutional system has developed and what it means today

**Constitutional Asymmetry in Multinational Federalism** Patricia Popelier, Maja Sahadžić, 2019-02-18 This edited volume examines the link between constitutional asymmetry and multinationalism in multi-tiered systems through a comprehensive and rigorous comparative analysis covering countries in Europe Africa and Asia Constitutional asymmetry means that the component units of a federation do not have equal relationships with each other and with the federal authority In traditional federal theories this is considered an anomaly The degree of symmetry and asymmetry is seen as an indicator of the degree of harmony or conflict within each system Therefore symmetrisation processes tend to be encouraged to secure the stability of the political system However scholars have linked asymmetry with multinational federalism presenting federalism and asymmetry as forms of ethnic conflict management This book offers insights into the different types of constitutional asymmetry the factors that stimulate symmetrisation and asymmetrisation processes and the ways in which constitutional asymmetry is linked with multinationalism

**Territorial Governance in Southeast Asia** Andrew Harding, 2025-01-23 This book assesses territorial governance that is all forms of subnational governance as a constitutional artefact in five Southeast Asian countries Indonesia Malaysia Myanmar the Philippines and Thailand Starting with the linked ideas of localism and subsidiarity the argument is that these states have used various forms of subsidiarity for dealing with ethnic and religious pluralism and the social diversity for which Southeast Asia is especially noted Territorial governance mechanisms discussed range from decentralisation to special regional autonomy federalism and local government including village autonomy A silent revolution has occurred in which our view of these states as highly centralised developmental states is in need of serious modification Southeast Asia the book argues presents a high degree of originality in the framing of territorial governance

**Courts and Diversity**, 2024-03-04 The Constitutional Court of Indonesia functions in one of the most diverse societies in the world It is required to resolve disputes within a kaleidoscope of diversity and plurality with flexibility pragmatism asymmetry and wisdom Whilst national minimum norms are important for nation building recognition of local customs diversities and indigenous systems are equally important to protect the territorial integrity of Indonesia and ensure local peace and stability Responding to demands of religious plurality customary lands rights traditional voting systems decentralisation to regions and local governments and responding to diversity of community life requires extraordinary skill insight and flexibility This book gives insight into twenty years of jurisprudence and places it in an international comparison
