such as the Gloster Meteor and the de Havilland Venom Powered by the then newly developed Rolls Royce Avon turbojet the Hunter s performance transformed the RAF s day fighter squadrons from the mid 1950s until the advent of the English Electric Lightning from the early 1960s Even then as successively improved variants of the type were produced with increasingly more capable engines and expanded fuel capacity the Hunter successfully transitioned into a strike ground attack fighter bomber and fighter reconnaissance platform Two seat variants were developed for training and other secondary roles with the RAF and the Royal Navy and a few remained in use until 2001 albeit with specialized MoD Test and Evaluation units well over forty years after the type s initial introduction This addition to the Flight Craft series follows our well established format in that it is split into three primary sections The first covers the Hawker Hunter using numerous photographs informative captions and tables The second is a 16 page full color illustration section featuring detailed profiles and 2 views of many of the color schemes and markings carried by Hunters The final section lists as many injection molded plastic model kits of the Hunter in all the major scales that the authors could obtain plus a photo gallery of models made by some of the world s best modelers A delight for anyone modeling a Hunter as it is so comprehensive British Military History
