 Shadows Louis Nikola, 2016-12-14 Generations of entertainers have amused audiences of children and adults with the art of
 hand shadows using only a light source and their own two hands to form immediately recognizable profiles of people and
 animals Lovers of nostalgia and aspiring hand shadow artists will delight in this facsimile of a 1913 book which features more
 than 50 hand shadows These quaint illustrations depict many different types of shadows from swans rabbits and other
 animals to historic figures and fictional characters Each hand shadow is accompanied by a description of specific hand
 positioning and an illustration Additional helpful tips include instructions on lighting projection screens and hand exercises

 and performing over fifty experiments **How Are Shadows and Reflections Made?** Mari Schuh, 2019-01-08 Have you
 ever seen your own shadow on a sunny day Objects can make shadows too Read to learn how light makes shadows and

 shadows *Hand Shadows to Be Thrown Upon the Wall* Henry Bursill, 2013-10 I need not explain how these Shadows were
 suggested to any one who has seen WILKIE S picture The Rabbit on the Wall But by what pains they were invented can never
 be revealed for it is known to my tortured digits alone and they luckily for me are dumb I calculate that I put my ten fingers
 through hundreds of various exercises before my Bird took wing my left little finger thrills at the memory of Grandpapa and
 my thumbs gave in no less than twenty times before Boy was accomplished Yet now how easy it is to make the Duck to quack
 the Donkey to bray Toby to wag his tail and the Rabbit to munch his unsubstantial meal Of course the Shadows are not to be
 reproduced perfectly on one trial only but I believe that in each case I have drawn the due position of the fingers with such
 care that the most difficult subject may be accomplished after a few minutes nor need ingenious youth or parental fondness
 confine their endeavours to the sketches contained in this book With a little ingenuity and some patience new shadows may
 be produced and not unfrequently figures appear that one never dreamed of attempting **Shadow Play** Bernie
 Zubrowski, 1995 Demonstrates how to build a shadow box in order to make a variety of shadows and explains how the study
 of shadows led to the invention of the camera *Hand Shadows to be Thrown Upon the Wall* Henry Bursill, 1999 **Hand**
