92-0640 - 92-0668 ,1992 Thanks for the Great Flight Captain James F Vaughan,2019-09-16 I never considered I would
become an airline pilot It was always too expensive or took too much time or I would not be hired with out a four college
degree Perhaps because I wore eye glasses I was content to offer Flight Instruction in my community and did quite well
teaching new low time private pilot students and Advanced certificate pilots I have been employed by six airlines and the only
reason I was hired at each one was because the airline needed pilots to operate the airline I began researching the
commercial pilot status and numbers and realized there truly is a pilot shortage world wide In my book I speak about the
training and preparation that go into obtaining a pilot license I will take the reader on an actual Airline Transport Pilot check
flight describing the sensations and maneuvers required for the Captain candidate to master We will fly a simulator during
our training and I will relate a humorous story that helped to break up the monotony of performing the same flight profile
over and over again I will explain the various aircraft systems as they pertain to flight so perhaps a non pilot airline
passenger may feel more informed of how an aircraft operates I will also address the aircraft performance factors that may
actually aid the passenger in selecting routes and times to ease their occasional travel delays Lastly I will relate a few super
natural instances that by my only explanation the Christian Lord was watching over my flight I have truly been blessed in my
life by becoming a commercial airline pilot **Módulo 11. Sistemas eléctricos y de aviónica** LÓPEZ CRESPO,
