Counselor Supervision Nicholas Ladany, Loretta J. Bradley, 2011-01-19 This new edition of Counseling Supervision is intended for counselor educators counselor supervisor practitioners and supervisors in training in a variety of educational and mental health settings The editors have brought together experts in the field of counselor

education to review and examine primary supervision theories and their application to the issues that counselor supervisors will encounter. Special topic areas included are multicultural issues in counselor supervision, the supervisory relationship, an essential and sometimes forgotten component of supervision and its influence on supervision process and outcome, supervision of career counselor trainees, supervision of school counselors, supervision of family and group counselors, group supervision, understanding and conducting research in counselor supervision and training, ethical and advocacy issues in supervision and supervisor training. The authors include numerous case examples throughout the text in order to illustrate the application of theory to practical issues that the counselor supervisors encounter. All chapters in this edition have been revised and updated and new chapters have been added that expand on areas of supervision that are highly relevant to students, researchers, and practitioners.

Using Technology to Enhance Clinical Supervision Tony Rousmaniere, Edina Renfro-Michel, 2016-01-08. This is the first comprehensive research and practice based guide for understanding and assessing supervision technology and for using it to improve the breadth and depth of services offered to supervisees and clients. Written by supervisors for supervisors, it examines the technology that is currently available and how and when to use it. Part I provides a thorough review of the technological, legal, ethical, cultural, accessibility, and security competencies that are the foundation for effectively integrating technology into clinical supervision. Part II presents applications of the most prominent and innovative uses of technology across the major domains in counseling along with best practices for delivery. Each chapter in this section contains a literature review, concrete examples for use, case examples, and lessons learned. Requests for digital versions from ACA can be found on www.wiley.com.
