Critical Terrorism Studies at Ten Richard Jackson, Harmonie Toros, Lee Jarvis, Charlotte Heath-Kelly, 2020-04-28 Critical Terrorism Studies emerged around 2007 in the context of the rapidly intensifying War on Terror It was in this era that terrorism became a growth industry which generated a huge amount of academic research as well as social and political

activity Yet a yawning gap developed between the actual material threat posed by terrorists and the level of investment and activity devoted to responding to this threat Similarly the quality of terrorism research was noticeably weak and lacking in methodological rigour Critical Terrorism Studies set out to explore the exceptional treatment of political violence to challenge the political manipulation of terrorism fears and increase in draconian anti terrorism legislation and to address some of the conceptual and methodological failings of terrorism research In the 10 years since the journal Critical Studies on Terrorism was launched that context and mission remains as important as ever This volume looks back on the achievements and failures of Critical Terrorism Studies in this period as well as collecting state of the art research into terrorism discourse queerness and the War on Terror the Prevent Strategy epistemology in terrorism studies state repression the ambiguous ends of militant campaigns the epistemology of preventative counterterrorism and the question of non violent responses to terror The chapters originally published in a special issue in Critical Studies in Terrorism

Critical Terrorism Studies since 11 September 2001 David Miller, Jessie Blackbourn, Helen Dexter, Rani Dhanda, 2016-04-08 Academic studies of terrorism grew exponentially in number after the September 11 attacks The problem was that much of this work of orthodox terrorism studies was biased often shoddily researched and was too closely identified with the power centres of Western states Its denizens were often former and sometimes current officials or officers in the military intelligence services or the security industry or were funded by them In response the project of Critical Terrorism Studies was intended to give a more rounded account of political violence in the world It focuses on neglected issues like state terrorism Western counterinsurgency propaganda and misinformation More than a decade since the founding of the critical project this book asks what has been learned It showcases leading examples of critical terrorism studies and presents an agenda for the expansion of an evidence based approach to political violence and terrorism With

chapters by leading authorities such as Joseba Zulaika Michael Stohl Mary Hickman and Richard Jackson the book evaluates how far the critical project has come and where it is going next This book was published as a special issue of Critical Studies on Terrorism

Finden, Carlos Yebra López, Tarela Ike, Ugo Gaudino, Samwel Oando, 2024-01-04 This interdisciplinary book presents an intervention into methodological practices in the subfield of Critical Terrorism Studies and features established and early career scholars The volume interrogates the role that research methods play in shaping the sub discipline of Critical Terrorism Studies CTS It responds to two major methodological gaps within CTS 1 the dearth of Global South cases and voices and decolonial and feminist approaches and 2 the lack of engagement with traditional disciplines and quantitative methods Together authors demonstrate that interdisciplinary methodological dialogues can open up new possibilities for researchers seeking pathways towards and definitions of emancipation social justice and freedom from violence Simultaneously the book shows that by focusing on the possibilities that methodologies open up to us and by maintaining a commitment to reflexive practice we expand our understandings of what are legitimate and acceptable forms of research thus challenging the Critical Terrorism Studies divide The chapters draw upon a wide range of empirical cases including Nigeria Kenya France Brazil and the UK focusing on three key issues within Critical Terrorism Studies its own relationship with and perpetuation of epistemic violence decolonial postcolonial Global South feminist and queer approaches and more traditional approaches and methods as a means to interrogate the methodological binary between Critical Terrorism Studies and Terrorism Studies This book will be of much interest to students of critical terrorism studies counter terrorism security studies and International Relations in general

Masquerades of War Christine Sylvester, 2015-05-22 This collection explores the concepts and practices of masquerade as they apply to concepts and practices of war The contributors insist that masquerades are everyday aspects of the politics praxis and experiences of war while also discovering that finding masquerades and tracing how they work with war is hardly simple With a range of theories innovative methodologies and contextual binoculars masquerade emerges as a layered and complex phenomenon It can appear as state deception lie or camouflage as in the population centric American warfare in Iraq that was sold as good for the local people or the hidden violence Russian military forces used on each other and on local men in Chechnya Masquerade can also be part of a people's war logic as exemplified by the Maoist movement in India Yet masquerade can also be understood as a normal social mask that people don to foreground an identity or belief from one's cluttered repertoire in order to gain agency Elements of masquerade can appear in texts that proclaim seemingly unequivocal positions while simultaneously yet subtly suggesting opposing positions Masquerades of all kinds also seem ubiquitous in fieldwork research and in resistance movements in war zones Perhaps masquerade though is ultimately the denial of death lurking behind the clarion call of security a call that bolsters war by making militarized policing normal to secure populations from terrorists These interpretations and others comprise **Masquerades of War** This book will be of much interest to students of critical war studies critical security conflict studies and IR in general

Neoliberalism and Terror Charlotte Heath-Kelly, Christopher Baker-Beall, Lee Jarvis, 2017-10-02 Terrorism and neoliberalism are connected in multiple complex and often camouflaged ways This book offers a critical exploration of some of the intersections between the two drawing on a wide range of case studies from the United States United Kingdom Brazil and the European Union Contributors to the book investigate the impact of neoliberal technologies and intellectual paradigms upon contemporary counterterrorism where the neoliberal era frames counter terrorism within an endless war against political uncertainty Others resist the notion that a separation ever existed between

neoliberalism and counter terrorism These contributions explore how counterterrorism is already itself an exercise of neoliberalism which practices a form of Class War on Terror Finally other contributors investigate the representation of terrorism within contemporary cultural products such as video games in order to explore the perpetuation of neoliberal and statist agendas In doing all of this the book situates post 9 11 counter terrorism discourse and practice within much needed historical contexts including the evolution of capitalism and the state Neoliberalism and Terror will be of great interest to readers within the fields of International Relations Security Studies Terrorism Studies and beyond This book was originally published as a special issue of Critical Studies on Terrorism

sometimes dominates public political discussion as well as private conversations Communication studies can help to further penetrate the phenomenon of terrorism and provide important pieces of the puzzle to grasp it in its entirety The development of media skills among some terrorist groups makes it imperative that the social problem of terrorism be approached with the help of a communications science lens **Routledge Handbook of Civil Wars** Edward Newman, Karl DeRouen, Jr., 2014-02-18
