Crossdressing Novels:

Cross Dressing, Sex, and Gender Vern L. Bullough, Bonnie Bullough, 1993 Not only surveys cross dressing and gender impersonation throughout history and in a variety of cultures but examines the medical biological psychological and sociological findings that have been presented in modern scientific literature Historical Romance Fiction Lisa Fletcher, 2016-04-22 The first book length study of romance novels to focus on issues of sexuality rather than gender Historical Romance Fiction moves the ongoing debate about the value and appeal of heterosexual romance onto new ground testing the claims of cutting edge critical theorists on everything from popular classics by Georgette Heyer to recent bodice rippers to historical fiction by John Fowles and A S Byatt Beginning with her nomination of I love you as the romance novel s defining speech act Lisa Fletcher engages closely with speech act theory and recent studies of performativity The range of texts serves to illustrate Fletcher s definition of historical romance as a fictional mode dependent on the force and familiarity of the speech act I love you and permits Fletcher to provide a detailed account of the genre s history and development in both its popular and literary manifestations Written from a feminist and anti homophobic perspective Fletcher s subtle arguments about the romantic speech act serve to demonstrate the genre s dependence on repetition Romance can only quote and the shaky ground on which the romance s heterosexual premise rests Her exploration of the subgenre of cross dressing novels is especially revealing in this regard With its deft mix of theoretical arguments and suggestive close readings Fletcher s book will appeal to specialists in genre speech act and performativity theory and gender studies

The Tradition Of Female Cross-Dressing In Early Modern Europe Rudolf M Dekker, Lotte C van de Pol, Kazi Maruful Islam, Dirk Nabers, 1989-02-08

Translating China as Cross-Identity Performance James St. André, 2018-05-31 James St Andr applies the perspective of cross identity performance to the translation of a wide variety of Chinese texts into English and French from the eighteenth to the twentieth centuries Drawing on scholarship in cultural studies queer studies and anthropology the author argues that many cross identity performance techniques including blackface passing drag mimicry and masquerade provide insights into the history of translation practice He makes a strong case for situating translation in its historical social and cultural milieu reading translated texts alongside a wide variety of other materials that helped shape the image of John Chinaman A reading of the life and works of George Psalmanazar whose cross identity performance as a native of Formosa enlivened early eighteenth century salons opens the volume and provides a bridge between the book s theoretical framework and its examination of Chinese European interactions The core of the book consists of a chronological series of cases each of which illustrates the use of a different type of cross identity performance to better understand translation practice St Andr provides close readings of early pseudotranslations including Marana s Turkish Spy 1691 and Goldsmith s Citizen of the World 1762 as well as adaptations of Hatchett s The Chinese Orphan 1741 and Voltaire s Orphelin de la Chine 1756 Later chapters explore Davis s translation of Sorrows of Han 1829 and genuine translations of nonfictional material mainly by employees of the East India Company The focus then shifts to oral aural aspects of early translation practice in the nineteenth century using the concept of mimicry to examine interactions between Pidgin English and translation in the popular press Finally the work of two early modern Chinese translators Gu Hongming and Lin Yutang is examined as masquerade Offering an original and innovative study of genres of writing that are traditionally examined in isolation St Andr s work provides a fascinating examination of the way three cultures interacted through the shifting encounters of fiction translation and nonfiction and in the process helped establish and shape the way Chinese were represented The book represents a major contribution to translation studies Chinese cultural studies postcolonial studies and gender criticism

The Historical Novel, Transnationalism, and the Postmodern Era Susan Brantly, 2017-02-17 This volume explores the genre of the historical novel and the variety of ways in which writers choose to represent the past How does an author s nationality or gender impact their artistic choices To what extent can historical novels appeal to a transnational audience This study demonstrates how histories can communicate across national borders often by invoking or deconstructing the very notion of nationhood Furthermore it traces how the concerns of the postmodern era such as postmodern critiques of historiography colonialism identity and the Enlightenment have impacted the genre of the historical novel and shows this impact has not been uniform

throughout Western culture Not all historical novels written during the postmodern era are postmodern The historical novel as a genre occupies a problematic yet significant space in Cold War literary currents torn between claims of authenticity and the impossibility of accessing the past Historical novels from England America Germany and France are compared and contrasted with historical novels from Sweden testing a variety of theoretical perspectives in the process This pitting of a center against a periphery serves to highlight traits that historical novels from the West have in common but also how they differ The historical novel is not just a local regional phenomenon but has become during the postmodern era a transnational tool for exploring how we should think of nations and nationalism and what a society should or should not look like
