Nature Obscura Kelly Brenner,2020-02-26 With wonder and a sense of humor Nature Obscura author Kelly Brenner aims to help us rediscover our connection to the natural world that is just outside our front door we just need to know where to look Through explorations of a rich and varied urban landscape Brenner reveals the complex micro habitats and surprising nature found in the middle of a city In her hometown of Seattle which has plowed down hills cut through the land to connect fresh and saltwater and paved over much of the rest she exposes a diverse range of strange and unknown creatures From shore to wetland forest to neighborhood park and graveyard to backyard Brenner uncovers how our land alterations have impacted nature for good and bad through the wildlife and plants that live alongside us often unseen These stories meld together in the same way our ecosystems species and human history are interconnected across the urban environment

Only Wonder Comprehends John Garvey,2018 For over forty years John Garvey was the ballast of Commonweal magazine His award winning essays and consistently notable columns revealed not only his acuity and alacrity but his uncommon spiritual insight These in turn provided momentum and substance for whatever followed in an issue of the magazine because Garvey never hesitated to wrestle with some of the most challenging and intractable topics of the day and did so with a rich pastoral sensitivity and a refreshing and rare intelligence Only Wonder Comprehends gleans from John

Garvey's many contributions to *Commonweal* that reflect his spiritual depth and deep appreciation of history, politics, theology, and culture. Steeped in the Christian tradition, Garvey loved to write, and in return, his readers relished what he wrote. It is hoped that this collection of his writings from *Commonweal* will inspire readers to cultivate a similar sense of attentiveness and commitment for as the author himself observed: Religious traditions are meant to transform us, not to affirm us as we are.

Encountering Earth Trevor George Hunsberger, Bechtel, Matt Eaton, Tim Harvie, 2018-05-14 One day Matthew Eaton was walking through an impromptu animal shelter display at his local pet store when suddenly an eight-month-old kitten dug his claws into Eaton's flesh. Eaton recognized that the eyes of this cat and the curve of his claw compelled a response analogous to those found in the writings of Buber, Levinas, and Derrida. And not just Eaton, but a whole community of theologians have found themselves in an encounter with particular places and animals that demands rich theological reflection. Eaton enlisted fellow editors Harvie and Bechtel to collect the essays in this volume in which theologians listen to horses, rats, snakes, cats, dogs, and the earth itself, who become new theological voices demanding a response. In this volume, the voice of the more-than-human world is heard as making theology possible. These essays suggest that what we say theologically represents not simply ideas of our own making, subsequently superimposed onto the natural world through our own discovery, but rather flow from an expressive Earth.

Ravensong Ceinwen Sanderson, 2015 Young raven Alaán is training to be a healer and he goes to the great battle of his age. After the battle, the ravens are determined that there should be no more wars, but how do they achieve this? Helped by crows and swallows, a small group of birds fly over the Great Seas to find out what happens there. The ravens at home wait anxiously. When the travellers return, a whole new life opens up for the young ravens and for older ravens too. The Ravens at the Tower of London are restless, and two of them determine to escape. Will they succeed?

Linnetswings Ceinwen Sanderson, 2016 Continues the story in *Ravensong*. The ravens have some new allies and forge friendships with other species.

Satellites in the High Country Jason Mark, 2015-09-29 In *Satellites in the High Country*, journalist and adventurer Jason Mark travels beyond the bright lights and certainties of our cities to seek wildness wherever it survives. In California's Point Reyes National Seashore, a battle over oyster farming and designated wilderness pits former allies against one another as locals wonder whether wilderness should be untouched, farmed, or something in between. In Washington's Cascade Mountains, a modern-day wild woman and her students learn to tan hides and start fires without matches, attempting to connect with a primal past out of reach for the rest of society. And in Colorado's High Country, dark skies and clear air reveal a breathtaking expanse of stars, flawed only by the arc of a satellite passing, beauty interrupted by the traffic of a million conversations. These expeditions to the edges of civilization's grid show us that although our notions of pristine nature may be shattering, the mystery of the wild still exists, and in fact, it is more crucial than ever.
