Peace Figuration after International Intervention Gëzim Visoka, 2016-07-01 This book examines the adverse impacts of liberal peacebuilding in conflict affected societies It introduces peace figuration as a new analytical framework for studying the intentionality performativity and consequences of liberal peacebuilding The work challenges current theories and views and searches for alternative non conflicted research avenues that are suitable for understanding how peacebuilding intentions are made how different events shape peace outcomes and what are the consequences of peacebuilding interventions Drawing on detailed case studies of peacebuilding in Bosnia and Herzegovina Kosovo and Timor Leste the book argues that attempts to build peace often fail to achieve the intended outcomes A figural view of peacebuilding interventions shows that post conflict societies experience multiple episodes of success and failure in an unpredictable trajectory This book develops a relational sociology of peacebuilding impact which is crucial for overcoming static measurement of peacebuilding successes or failures It shows that international interventions can shape peace but importantly not always in the shape they intended This book will be of much interest to students of statebuilding peacebuilding war and conflict studies security studies and IR

Bosnia and Herzegovina's Foreign Policy Since Independence Jasmin Hasić, Dženeta Karabegović, 2019-03-06 This book is the first to provide a comprehensive and systematic analysis of the foreign policy of Bosnia and Herzegovina a post conflict country with an active agency in international affairs Bridging academic and policy debates the book summarizes and further examines the first twenty five years of BiH's foreign policy following the country's independence from Yugoslavia in 1992 Topics covered include conflict and post conflict periods Euro Atlantic integration political affairs on both local and regional levels integration with a variety of international organizations and actors neighboring states bilateral relations with relevant other states including the United States Russia selected EU countries and Turkey as well as BiH's diaspora The book highlights that despite their apparent weakness post conflict states have agency to carry out foreign policy goals and engage with the international sphere including in geopolitics and thus provides a novel insight into weakstates and their role in international politics

Transitional Justice and Reconciliation Martina Fischer, Olivera Simic, 2015-11-06 Scholars and practitioners alike agree that somehow the past needs to be addressed in order to enable individuals and collectives to rebuild trust and relationships However they also continue to struggle with critical questions When is the right moment to address the legacies of the past after violent conflict How can societies address the past without deepening the pain that arises from memories related to the violence and crimes committed in war How can cultures of remembrance be established that would include and

acknowledges the victims of all sides involved in violent conflict How can various actors deal constructively with different interpretations of facts and history Two decades after the wars societies in Bosnia Serbia and Croatia albeit to different degrees are still facing the legacies of the wars of the 1990s on a daily basis Reconciliation between and within these societies remains a formidable challenge given that all three countries are still facing unresolved disputes either at a cross border level or amongst parallel societies that persist at a local community level This book engages scholars and practitioners from the regions of former Yugoslavia as well as international experts to reflect on the achievements and obstacles that characterise efforts to deal with the past Drawing variously on empirical studies theoretical discussions and practical experience their contributions offer invaluable insights into the complex relationship between transitional justice and conflict transformation

Handbook on Intervention and Statebuilding Nicolas Lemay-Hébert, 2019-12-27 This innovative Handbook offers a new perspective on the cutting edge conceptual advances that have shaped and continue to shape the field of intervention and statebuilding

International Intervention and the Problem of Legitimacy Andrew C. Gilbert, 2020-08-15 In *International Intervention and the Problem of Legitimacy* Andrew C Gilbert argues for an ethnographic analysis of international intervention as a series of encounters focusing on the relations of difference and inequality and the question of legitimacy that permeate such encounters He discusses the transformations that happen in everyday engagements between intervention agents and their target populations and also identifies key instabilities that emerge out of such engagements Gilbert highlights the struggles entanglements and inter dependencies between and among foreign agents and the people of Bosnia Herzegovina that channel and shape intervention and how it unfolds Drawing upon nearly two years of fieldwork studying in postwar Bosnia and Herzegovina Gilbert's probing analysis identifies previously overlooked sites processes and effects of international intervention and suggests new comparative opportunities for the study of transnational action that seeks to save and secure human lives and improve the human condition Above all *International Intervention and the Problem of Legitimacy* foregrounds and analyzes the open ended innovative and unpredictable nature of international intervention that is usually omitted from the ordered representations of the technocratic vision and the confident assertions of many critiques

The Urban Transformation of Sarajevo Jordi Martín-Díaz, 2021-08-10 Following the signing of the peace agreement and the end of three and a half years of siege Sarajevo simultaneously experienced a double transition from war to peace and from socialism to capitalism that was marked by an increasing international intervention This book presents a study of the urban transformation of Sarajevo during the post war period and considers both the role and the impact of the international community in its spatial and ethnic configuration Part I focuses on the period of maximum international involvement developed at local level from December 1995 until 2003 and comprises chapters on the ethno territorial division of the city the reconstruction of its ethnic diversity and the liberal transition fostered and imposed internationally Part II deals with the impact of these policies on the current spatial functional and ethnic configuration in the

area of Sarajevo **Shaping Peace in Kosovo** Gëzim Visoka, 2017-04-05 This book explores the prospects and limits of international intervention in building peace and creating a new state in an ethnically divided society and fragmented international order The book offers a critical account of the international missions in Kosovo and traces the effectiveness of fluid forms of interventionism It also explores the co-optation of peace by ethno nationalist groups and explores how their contradictory perception of peace produced an ungovernable peace which has been manifested with intractable ethnic antagonisms state capture and ignorance of the root causes drivers and consequences of the conflict Under these conditions prospects for emancipatory peace have not come from external actors ethno nationalist elite and critical resistance movements but from local and everyday acts of peace formation and agnostic forms for reconciliation The book proposes an emancipatory agenda for peace in Kosovo embedded on post ethnic politics and joint commitments to peace a comprehensive agenda for reconciliation people centred security and peace enabling external assistance *The Rise and Fall of Peacebuilding in the Balkans* Roberto Belloni, 2019-05-06 This book examines the evolution of liberal peacebuilding in the Balkans since the mid 1990s After more than two decades of peacebuilding intervention widespread popular disappointment by local communities is increasingly visible Since the early 2010s difficult conditions have spurred a wave of protest throughout the region Citizens have variously denounced the political system political elites corruption and mismanagement Rather than re-evaluating their strategy in light of mounting local discontent international peacebuilding officials have increasingly adopted cynical calculations about stability This book explains this evolution from the optimism of the mid 1990s to the current state through the analysis of three main phases moving from the initial rise to a later condition of stalemate and then fall of peacebuilding **Failed Peacemaking** Sandra Pogodda, Oliver P. Richmond, Gëzim Visoka, 2023-07-10 This book investigates why peace and reform processes across the world have recently been stagnating or have become blocked They have failed to maintain security rights development and justice in the liberal international order The book identifies the related rise of counter peace processes at the heart of failed peacemaking efforts and explores the implications for an emerging multi polar order where local and international tools for peace and reform appear to be ineffective Across a range of recent cases from Cambodia the Balkans the Sahel region DRC Colombia Afghanistan and many others such dynamics are becoming clearer In particular small scale blocking tactics across different peace processes have been evolving into larger political strategies which are then disseminated within revisionist and revanchist international networks Ultimately this phenomenon has undermined liberal international order Spoilers and tactical blockages to peace have connected across local national regional and international scales highlighting ideological divisions Drawing on counter revolutionary theory the concept of counter peace is used as a tool to critically interrogate a systemic array of blockages to peace Distinct counter peace patterns are now entangled in peace and reform processes including the stalemate pattern the limited counter peace and the unmitigated counter peace patterns Across cases once tactical blockages begin to form these patterns they become

systemic and ultimately enable conflict escalation Consequently the intimate entanglement of the existing international peace architecture with counter peace processes points to ideological divisions in international order as well as the growing gulf between diminished practices of peace and reform with critical scholarship on peace justice and sustainability **The SAGE Encyclopedia of War: Social Science Perspectives** Paul Joseph,2016-10-11 Traditional explorations of war look through the lens of history and military science focusing on big events big battles and big generals By contrast The SAGE Encyclopedia of War Social Science Perspective views war through the lens of the social sciences looking at the causes processes and effects of war and drawing from a vast group of fields such as communication and mass media economics political science and law psychology and sociology Key features include More than 650 entries organized in an A to Z format authored and signed by key academics in the field Entries conclude with cross references and further readings aiding the researcher further in their research journeys An alternative Reader s Guide table of contents groups articles by disciplinary areas and by broad themes A helpful Resource Guide directing researchers to classic books journals and electronic resources for more in depth study This important and distinctive work will be a key reference for all researchers in the fields of political science international relations and sociology **Peace in Digital International Relations** Oliver P. Richmond,Gözüm Visoka,Ioannis Tellidis,2023-04-06 The international architecture of peacebuilding and statebuilding is currently responding to a shift from analogue to digital approaches in international relations This is affecting conflict management intervention peacebuilding and the all important role of civil society This Element analyses the potential that these new digital forms of international relations offer for the reform of peace praxis namely the enhancement of critical agency across networks and scales the expansion of claims for rights and the mitigation of obstacles posed by sovereignty locality and territoriality The Element also addresses the parallel limitations of digital technologies in terms of political emancipation related to subaltern claims the risk of co optation by historical and analogue power structures institutions and actors We conclude that though aspects of emerging digital approaches to making peace are promising they cannot yet bypass or resolve older analogue conflict dynamics revolving around power relations territorialism and state formation **Safeguarding The Nations : Sasaran dan Strategi Diplomasi Pertahanan** Assoc. (Norton Global Ethics Series) Rory Stewart, Gerald Knaus, 2011-08-15 Best selling author Rory Stewart and political economist Gerald Knaus examine the impact of large scale interventions from Bosnia to Afghanistan A fresh and critically important perspective on foreign interventions Washington Post Can Intervention Work distills Rory Stewart's author of *The Places In Between* and Gerald Knaus's remarkable firsthand experiences of political and military interventions into a potent examination of what we can and cannot achieve in a new era of nation building As they delve into the massive military driven efforts in Bosnia Iraq and Afghanistan the authors reveal each effort's enormous consequences for international relations human rights and our understanding of state building

Stewart and Knaus parse carefully the philosophies that have informed interventionism from neoconservative to liberal imperialist and draw on their diverse experiences in the military nongovernmental organizations and the Iraqi provincial government to reveal what we can ultimately expect from large scale interventions and how they might best realize positive change in the world Author and columnist Fred Kaplan calls *Can Intervention Work* the most thorough examination of the subject of intervention that I've read in a while
