Directed Guide Catholic Social Teaching:

Handbook of Catholic Social Teaching Martin Schlag, 2017 Handbook of Catholic Social Teaching employs a question and answer format to better accentuate the response of the Church's message to the questions Catholics have about their social role and what the Church intends to teach about it. Written in consultation with the Pontifical Council for Justice and Peace, the Handbook should take its place alongside the Catechism of the Social Doctrine of the Church on the shelf of informed Catholics as works that can inform what we believe and do in the public sphere. [A Concise Guide to Catholic Social Teaching](#) Kevin E. McKenna, 2019-02-08 Topics related to Catholic social teaching emerge regularly in American political and civic discourse often connected to discussions about religious freedom, abortion, immigrant rights, racism, capital punishment, and health care. This third edition of *A Concise Guide to Catholic Social Teaching* by Rev. Kevin E. McKenna incorporates the essential teachings of Pope Francis in *Evangelium Gaudium*, *Laudato Si*, and *Amoris Laetitia* to offer a clear, beginner-level reference tool and study guide for Church leaders and other interested Catholics to help them navigate this vast body of teaching. Building on core themes of human dignity, community rights and responsibilities, option for the poor, dignity of work, solidarity, and care of creation, McKenna distills a vast amount of Catholic teaching into easily digestible summaries, each carefully referenced to its primary source and correlated to pressing issues making today's headlines. The book includes crucial teachings of the popes from Louis XIII through Francis as well as from the United States Conference of Catholic Bishops. Each chapter concludes with questions for reflection and dialogue, and appendices provide tools for parishes and study groups. This practical and thorough guide remains a perennial favorite for study and reference in Catholic parishes, universities, and ministry formation programs. *A Sociotheological Approach to Catholic Social Teaching* Vivencio O. Ballano, 2022-10-31 This book introduces Catholic social teaching (CST) and its teaching on the common good to the reader and applies them in the realm of public health to critically analyze the major global issues of COVID-19 that undermine public interest. It uses the sociotheological approach that combines the moral principles of CST and the holistic analysis of modern sociology and also utilizes the secondary literature as the main source of textual data. Specifically, it investigates the corporate moral irresponsibility and some unethical business practices of Big Pharma in the sale and distribution of its anti-COVID vaccines and medicines, the injustice in the inequitable global vaccine distribution, the weakening of the United States Congress's legislative regulation against the pharmaceutical industry's overpricing and profiteering, the inadequacy of the World Health Organization's (WHO) law enforcement system against corruption and the lack of social monitoring in the current public health surveillance system to safeguard the public good from corporate fraud and white-collar crime. This book highlights the contribution of sociology in providing the empirical foundation of CST's moral analysis and in crafting appropriate Catholic social action during the pandemic. It is hoped that through this book, secular scholars, social scientists, religious leaders, moral theologians, religious educators, and Catholic lay leaders would be more appreciative of the

sociotheological approach to understanding religion and COVID 19 This book brings into dialogue two bodies of literature documents of Catholic social teaching and modern sociology and its core thinkers and texts The author does especially well to describe how taking the sociotheological turn will benefit the credibility and dissemination of Catholic social thought Rev Fr Thomas Massaro S J Professor of Moral Theology Jesuit School of Theology Santa Clara University Berkeley California

Modern Catholic Social Teaching Joe Holland, 2003 The impact of the industrial revolution on the social structures of industrialized nations posed a difficult challenge to the Catholic Church and its Popes In the struggle for human and economic status should the Church side with the new working class or with capitalist barons who along with the old aristocracy identified themselves as upholders of Christian civilization In this history of papal social teaching Joe Holland tells how the popes at first backed the status quo Then with the accession of Pope Leo XIII in 1878 a seismic shift took place Leo's encyclical Rerum novarum was the first authoritative Church voice to declare that laboring people have rights the right to fair wages to decent living conditions the right to organize labor unions and even to strike Henceforth the notion of civilization at least for the Church would be grounded in the lives and aspirations of working people Modern Catholic Social Teaching traces this historic shift as it played out in the writings of Leo and the popes who followed him Pius X Benedict XV Pius XI and Pius XII These popes supported Leo's encyclical and even elaborated it as European history experienced the emergence

Justice After War David Chiwon Kwon, 2023-05-12 Justice After War is aimed especially to both undergraduate and graduate students as well as the general audience who want to understand the significance of a recent development within the just war tradition namely the increasing attention given to the category of jus post bellum postwar justice and peace While examining the interrelated challenges of moral and social norms in both political and legal domains as well as church practices this work proposes an innovative methodology for linking theology ethics and social science so that the ideal and the real can inform each other in the ethics of war and peacebuilding The main task of this project then is to identify what the author views as three key

themes of jus post bellum and three practices that are essential to implementing jus post bellum immediately after a war just policing just punishment and just political participation David Kwon endeavors to challenge the view of those who suggest that reconciliation mainly political reconciliation is the foremost ambition of jus post bellum Instead he attempts to justify the proposition that achieving just policing just punishment and just political participation are essential to building a just peace a peace in which the fundamental characteristic must be human security It thus demonstrates that human security is an oft neglected theme in the recent discourse of moral theologians and that a more balanced understanding of jus post bellum will direct attention to the elements composing human security in a postwar context
