Disappearance Of God The:

The Disappearance of God Richard Elliott Friedman,1995-10 Friedman examines how God gradually becomes hidden as the Bible progresses and this phenomenon s place in the formation of Judaism and Christianity **The Disappearance**

of God Richard E. Friedman,1924-12-01 **The Disappearance of God** Joseph Hillis Miller,2000 A landmark work of literary criticism by one of the foremost interpreters of nineteenth century England The Disappearance of God confronts the consciousness of an absent though perhaps still existent God in the writings of Thomas De Quincey Robert Browning Emily Bronte Matthew Arnold and Gerard Manley Hopkins J Hillis Miller surveys the intellectual and material developments that conspired to cut man off from God among other factors the city developments within Christianity subjectivism and the emergence of the modern historical sense and shows how each writer s body of work reflects a sustained response to the experience of God s disappearance and a unique effort to weave a new fabric of connection between God and creation

Modernist Literature G. Erickson,2007-05-14 Uses recent thought in continental philosophy and postmodern theology to interpret hidden and contradictory god ideas in texts of modernism such as Henry James s The Golden Bowl Marcel Proust s In Search of Lost Time James Joyce s Portrait of the Artist As a Young Man and Arnold Schoenberg s opera Moses und Aron

J. Hillis Miller and the Play of Literature Jonathan Locke Hart,2023-12-27 This is the first book to discuss the full sweep of the work of J Hillis Miller from his earliest writing in the 1950s to those near the time of his death in February 2021 across the genres of his criticism and theory poetry fiction drama fiction non fiction The book examines Miller s preference for close and careful reading of individual literary and critical works over abstract theory The study will discuss the last member of the so called Yale School of deconstruction to die but will see him as a reader and lover of literature someone interested in Georges Poulet and phenomenology and in Jacques Derrida and deconstruction Miller was concerned about many aspects of

literature and life including the pleasure of reading and writing and in climate change which he saw as the crisis of our time Miller was well known in humanities and literature worldwide as one of the greatest of modern critics and theorists *The Crusader*, 1924 **Victorian Subjects** Joseph Hillis Miller, 1991 Written over a thirty five year period these essays reflect the changes in J Hillis Miller's thinking on Victorian topics from an early concern with questions of consciousness form and intellectual history to a more recent focus on parable and the development of a deconstructive ethics of reading Miller defines the term Victorian subjects in more than one sense The phrase identifies an historical time but also names a concern throughout with subjectivity consciousness and selfhood in Victorian literature The essays show various Victorian subjectivities seeking to ground themselves in their own underlying substance or in some self beneath or beyond the self But Victorian subjects also discusses those who were subject to Queen Victoria to the reigning ideologies of the time to historical social and material conditions including the conditions under which literature was written published distributed and consumed These essays taken together sketch the outlines of ideological assumptions within the period about the self interpersonal relations nature literary form the social function of literature and other Victorian subjects *The Disappearance of God and Science* Roland Gibson, 1999 At a time when the religion versus science debate is once again coming to the fore it must be recognised that the reconciliation of the two is no simple matter Indeed as this book argues any attempt at simplification can only result in a lack of full understanding and very often in complete misunderstanding of the social philosophical and political issues involved In his book Roland Gibson argues that as interpretation of information science and religion are in fact one and the same thing As needing others the author argues we believe in the same thing whatever it is called **Encyclopaedia of Religion and Ethics** James Hastings, John Alexander Selbie, Louis Herbert Gray, 1919 *Kierkegaard and the Self Before God* Simon D. Podmore, 2011-02 Simon D Podmore claims that becoming a self before God is both a divine gift and an anxious obligation Before we can know God or ourselves we must come to a moment of recognition How this comes to be as well as the terms of such acknowledgment are worked out in Podmore's powerful new reading of Kierkegaard As he gives full consideration to Kierkegaard's writings Podmore explores themes such as despair anxiety melancholy and spiritual trial and how they are broken by the triumph of faith forgiveness and the love of God He confronts the abyss between the self and the divine in order to understand how we can come to know ourselves in relation to a God who is apparently so wholly Other *The Humanistic Heritage* Daniel R. Schwarz, 1986 Stressing that the literary works are written by human authors about human subjects and for human readers Schwarz argues that reading must be understood as a transaction between texts and readers *The disappearance of God* Joseph Hillis Miller, 1975 **The Philosophical Quarterly**, 1928 **Literature and the Encounter with God in Post-Reformation England** Michael Martin, 2016-05-23 Each of the figures examined in this study John Dee John Donne Sir Kenelm Digby Henry and Thomas Vaughan and Jane Lead is concerned with the ways in which God can be approached or experienced Michael Martin analyzes

the ways in which the encounter with God is figured among these early modern writers who inhabit the shared cultural space of poets and preachers mystics and scientists The three main themes that inform this study are Cura animarum the care of souls and the diminished role of spiritual direction in post Reformation religious life the rise of scientific rationality and the struggle against the disappearance of the Holy Arising from the methods and commitments of phenomenology the primary mode of inquiry of this study resides in contemplation not in a religious sense but in the realm of perception attendance and acceptance Martin portrays figures such as Dee Digby and Thomas Vaughan not as the eccentrics they are often depicted to have been but rather as participating in a religious mainstream that had been radically altered by the disappearance of any kind of mandatory or regular spiritual direction a problem which was further complicated and exacerbated by the rise of science Thus this study contributes to a reconfiguration of our notion of what religious orthodoxy really meant during the period and calls into question our own assumptions about what is or was orthodox and heterodox

The Bonds of Freedom Garry Deverell, 2008-12-01 This book proposes that Christian worship is a key source for any theology seeking to understand the covenant between God and human beings in the Christian tradition Through a detailed examination of phenomenological biblical and theological sources the author seeks to write a theology in which the selfhood of both God and human beings is seen as essentially vowed or covenantal This claim is then explored through a detailed examination of Eucharistic worship which is understood as a non identical performance of the covenant established between God and human beings in baptism Here then is a theology that understands Christian worship not simply as form or event but more radically as a mutual act of promising and commitment between God and human beings

The Divine Manifold Roland Faber, 2014-07-30 The Divine Manifold is a postmodern enquiry in intersecting themes of the concept and reality of multiplicity in a chaosmos that does not refuse a dimension of theopoetics but rather defines it in terms of divine polyphilia the love of multiplicity In an intricate play on Dante s Divine Comedy this book engages questions of religion and philosophy through the aporetic dynamics of love and power locating its discussions in the midst of and in between the spheres of a genuine philosophy of multiplicity This philosophy originates from the poststructuralist approach of Gilles Deleuze and the process philosophical inspirations of Alfred N Whitehead As their chaosmos invites questions of ultimate reality religious pluralism and multireligious engagement a theopoetics of love will find paradoxical dissociations and harmonizations with postmodern sensitivities of language power knowledge and embodiment At the intersection of poststructuralism s and process theology s insights in the liberating necessity of multiplicity for a postmodern cosmology the book realizes its central claim If there is a divine dimension of the chaosmos it will not be found in any identification with mundane forces or supernatural powers but on the contrary in the absolute difference of polyphilic love from creativity Yet the concurrent indifference of love and power its mystical undecidability in terms of any conceptualization will lead into existential questions of the insistence on multiplicity in a world of infinite becoming as inescapable background for its importance and

creativity formulating an ecological and ethical impulse for a mystagogy of becoming intermezzo **The Genesis of God** Thomas J. J. Altizer, 1993-04-15 Thomas Altizer one of America's premier theologians searches for a proper understanding of the Christian God which he believes can only be explicated when the question of origin is raised He begins with an investigation of Hegelian thinking develops his insights in dialogue with such thinkers as Augustine and Nietzsche and then focuses on notions generated by the Christian epic poetry of Dante Milton and Blake By explicating the absolute origin of God that only Christianity knows Altizer discloses the origin of a uniquely Christian freedom while also touching upon such important themes as predestination the fall evil and eternity **God the Eternal Contemporary** Adrian Langdon, 2012-04-27 The relation of the eternal God to time and history has perplexed theologians and philosophers for centuries How can Christians describe a God who is distinct from time but acts within it This book presents one creative and profound approach to this perennial theme by examining the theology of Karl Barth Contrary to interpretations of Barth that suggest he held a view of eternity as abstracted from time and history this comprehensive study suggests that he provides a more complex and fruitful understanding Rather than defining eternity in a negative relation to time Barth relates eternity and time with reference to such doctrines as the Trinity and incarnation This ensures overcoming what he saw as the Babylonian Captivity of an abstract philosophical definition of eternity that developed in the Western tradition The central argument of the book suggests an analogia trinitaria temporis a basic analogy between the eternal being of God and God's creating and activity within time Also implicit in Barth's view is a narrative view of time similar to the view of Paul Ricoeur which unfolds as the Church Dogmatics develops **The Imprisoned Splendor** Lawrence J. Starzyk, 1977
