are more targeted cost effective efficient and timely Governing Disasters Engaging Local Populations in Humanitarian Relief examines the interplay between law governance and collaborative decision making with international state private sector and community actors in order to understand the dynamics of a global decentralized yet coordinated process of post disaster humanitarian assistance *Disasters and Social Crisis in Contemporary Japan* Mark R. Mullins,Koichi Nakano,2016-01-26 Japan was shaken by the double disaster of earthquake and sarin gas attack in 1995 and in 2011 it was hit once again by the triple disaster of earthquake tsunami and nuclear meltdown This international multi disciplinary group of scholars examines the state and societal responses to the disasters and social crisis *Jurisprudence and Socio-Legal Studies* Roger Cotterrell,2024-03-12 This book presents a set of related studies aimed at showing key points of intersection and common interest between jurisprudence and socio legal studies which are otherwise typically considered distinct fields It reflects and draws on the author s work in these areas over more than four decades The first half of the book explores theoretical issues surrounding the enterprise of socio legal research its current scope and its historical traditions Some chapters directly compare juristic theory and socio legal inquiry Chapters in Part II profile a selection of European jurists whose work offers important insights for socio legal inquiry Other chapters frame these studies explore the history of interactions between jurisprudence and socio legal research and show points of convergence between these fields that are increasingly important today A main aim of the book is to show the current urgency of linking and broadening juristic and social scientific interests in law Internationally oriented the book will be of interest to students and researchers in the areas of jurisprudence legal philosophy sociology of law socio legal studies and comparative law It is suitable as supplementary reading for courses in any of these subjects **Disasters, Hazards and Law** Mathieu Deflem,2012-11-14 Deals with important social science issues of law and legal control pertaining to disasters and hazards in a variety of contexts This title includes legal controls pertaining to disaster prevention response and mitigation regulations and policies concerning hazardous conditions and crime and the control thereof in post disaster situations *Australian National Bibliography* ,1994 *5th World Congress on Disaster Management: Volume III* S. of safety health and or environmental crimes This is curious given that recent years have witnessed a resurgence in popular academic and indeed state attention to questions related to environmental degradation and human safety Certainly in the latter context there is some recognition that environmental degradation must be understood partly in terms of environmental crimes by corporations Moreover recent experience in both the US and the UK attests to the fact that there is no ineluctable trend towards safer and healthier workplaces as deregulatory movements have resulted in increased risks for most workers and this text argues an increased opportunity for and incidence of safety crimes At the centre of environmental safety and health issues lie the chemicals industries These industries are of strategic importance to national economies while also having almost unique hazard and risk potential and it is for these reasons that these are the focus of this text Any understanding of the nature of these types of corporate crimes and thus any recognition of the potential for their more effective regulation requires an analysis that is grounded in more general sociological concerns and in political economy For this reason this text emphasises the need for understandings of the nature of contemporary and emergent forms of corporate organisation of their place in contemporary economies and of the relationships between these forms and state formations
