Curran,2020-11-17 Partisan activities of disloyal women and the

Union army s reaction During the American Civil War more than four hundred women were arrested and imprisoned by the Union Army in the St Louis area The majority of these women were fully aware of the political nature of their actions and had made conscious decisions to assist Confederate soldiers in armed rebellion against the U S government Their crimes included

offering aid to Confederate soldiers smuggling spying sabotaging and rarely serving in the Confederate army Historian Thomas F Curran s extensive research highlights for the first time the female Confederate prisoners in the St Louis area and his thoughtful analysis shows how their activities affected Federal military policy Early in the war Union officials felt reluctant to arrest women and waited to do so until their conduct could no longer be tolerated The war progressed the women s disloyal activities escalated and Federal response grew stronger Some Confederate partisan women were banished to the South while others were held at Alton Military Prison and other sites The guerilla war in Missouri resulted in more arrests of women and the task of incarcerating them became more complicated The women s offenses were seen as treasonous by the Federal government By determining that women who were excluded from the politics of the male public sphere were capable of treason Federal authorities implicitly acknowledged that women acted in ways that had serious political meaning Nearly six decades before U S women had the right to vote Federal officials who dealt with Confederate partisan women routinely referred to them as citizens Federal officials created a policy that conferred on female citizens the same obligations male citizens had during time of war and rebellion and they prosecuted disloyal women in the same way they did disloyal men The women arrested in the St Louis area are only a fraction of the total number of female southern partisans who found ways to advance the Confederate military cause More significant than their numbers however is what the fragmentary records of these women reveal about the activities that led to their arrests the reactions women partisans evoked from the Federal authorities who confronted them the impact that women s partisan activities had on Federal military policy and military prisons and how these women s experiences were subsumed to comport with a Lost Cause myth the need for valorous men to safeguard the homes of defenseless women

Gateway to Equality Keona K. Ervin, 2017-07-28 Like most of the nation during the 1930s St Louis Missouri was caught in the stifling grip of the Great Depression For the next thirty years the Gateway City continued to experience significant urban decline as its population swelled and the area s industries stagnated Over these decades many African American citizens in the region found themselves struggling financially and fighting for access to profitable jobs and suitable working conditions To combat ingrained racism crippling levels of poverty and sub standard living conditions black women worked together to form a community based culture of resistance fighting for employment a living wage dignity representation and political leadership Gateway to Equality investigates black working class women s struggle for economic justice from the rise of New Deal liberalism in the 1930s to the social upheavals of the 1960s Author Keona K Ervin explains that the conditions in twentieth century St Louis were uniquely conducive to the rise of this movement since the city s economy was based on light industries that employed women such as textiles and food processing As part of the Great Migration black women migrated to the city at a higher rate than their male counterparts and labor and black freedom movements relied less on a charismatic male leadership model This made it possible for women to emerge as visible and influential leaders in both formal and informal capacities In this

impressive study Ervin presents a stunning account of the ways in which black working class women creatively fused racial and economic justice By illustrating that their politics played an important role in defining urban political agendas her work sheds light on an unexplored aspect of community activism and illuminates the complexities of the overlapping civil rights and labor movements during the first half of the twentieth century

Department Stores and the Black Freedom Movement Traci Parker,2019-02-06 In this book Traci Parker examines the movement to racially integrate white collar work and consumption in American department stores and broadens our understanding of historical transformations in African American class and

labor formation Built on the goals organization and momentum of earlier struggles for justice the department store movement channeled the power of store workers and consumers to promote black freedom in the mid twentieth century Sponsoring lunch counter sit ins and protests in the 1950s and 1960s and challenging discrimination in the courts in the 1970s this movement ended in the early 1980s with the conclusion of the Sears Roebuck and Co affirmative action cases and the transformation and consolidation of American department stores In documenting the experiences of African American workers and consumers during this era Parker highlights the department store as a key site for the inception of a modern black middle class and demonstrates the ways that both work and consumption were battlegrounds for civil rights

Slow and Sudden Violence Derek Hyra,2024 In *Slow and Sudden Violence* Derek Hyra weaves together a persuasive unrest narrative linking police aggression to an ongoing cycle of racial and spatial urban redevelopment repression By delving into the real estate history of the St Louis region and Baltimore Hyra shows how rounds of urban renewal decisions to segregate divest displace and gentrify Black communities advance neighborhood inequality Despite moments of racial political representation repeated decisions to upgrade the urban fabric and uproot low income Black populations result in Black poverty pockets inhabited by people experiencing chronic displacement trauma and unrelenting police surveillance These interconnected sets of accumulated frustrations powerfully culminate and surface when tragic and unjust police killings occur To confront the core components of U S unrest Hyra suggests we must end racialized policing stop Black community destruction and displacement and reduce neighborhood inequality

Stepping over the Color Line Amy Stuart Wells,Robert L. Crain,1997-05-29 This important book takes the discussion of racial inequality in America beyond simplistic arguments of white racism and black victimization to a more complex conversation about the separate but unequal situation in many schools today Amy Stuart Wells and Robert Crain investigate the St Louis Missouri school desegregation plan a unique agreement that since 1983 has given black inner city students the right to choose to attend predominantly white suburban schools After five years of research and hundreds of interviews with policymakers administrators teachers students and parents Wells and Crain conclude that when school desegregation is examined from these many perspectives more strengths than weaknesses emerge They call for a reexamination of now popular school choice policies across the country so that these policies may help to bring about more racial and social class integration *Stepping over the Color Line* intertwines data on student achievement and racial isolation with stories of the people who participated in the St Louis program The authors set these individuals within a broad historical and social context and demonstrate how important linkages between the past and present help explain why efforts to overcome racial inequality in St Louis and in the larger society are so difficult The authors do a superb job of explaining how this innovative program came about placing it in a broad context that takes it beyond its immediate and local implications The book is at times heartbreaking and at times uplifting Richard Zweigenhaft co author of *Blacks in the White Establishment A Study of Race and Class in America*

Like Wildfire Sean Patrick O'Rourke, Lesli K. Pace, 2020-06-02 The sit ins of the American civil rights movement were extraordinary acts of dissent in an age marked by protest By sitting in at whites only lunch counters libraries beaches swimming pools skating rinks and churches young African Americans and their allies put their lives on the line fully aware that their actions would almost inevitably incite hateful violent responses from entrenched and increasingly desperate white segregationists And yet they did so in great numbers most estimates suggest that in 1960 alone more than seventy thousand young people participated in sit ins across the American South and more than three thousand were arrested The simplicity

and purity of the act of sitting in coupled with the dignity and grace exhibited by participants lent to the sit in movement s sanctity and peaceful power In Like Wildfire editors Sean Patrick O Rourke and Lesli K Pace seek to clarify and analyze the power of civil rights sit ins as rhetorical acts persuasive campaigns designed to alter perceptions of apartheid social structures and to change the attitudes laws and policies that supported those structures These cohesive essays from leading scholars offer a new appraisal of the origins growth and legacy of the sit ins which has gone largely ignored in scholarly literature The authors examine different forms of sitting in and the evolution of the rhetorical dynamics of sit in protests detailing the organizational strategies they employed and connecting them to later protests By focusing on the persuasive power of demanding space the contributors articulate the ways in which the protestors battle for basic civil rights shaped social practices laws and the national dialogue O Rourke and Pace maintain that the legacies of the civil rights sit ins have been many complicated and at times undervalued
