Lunenburg, Beverly J. Irby, 2022-08-04 Today s emphasis on student learning outcomes coupled with federal legislation to that end has placed more demands on the role of the principal than ever before in our nation s history To address the heightened demands for greater accountability for student learning The Principalship uses a learning centered approach one that emphasizes the role of the principal as the steward of the school s vision learning for all The critical aspects of the teaching learning process are addressed here including student motivation individual differences classroom management assessing student learning and developing maintaining and changing school culture In addition several topics not found in other principalship texts are addressed including school safety special education gifted education bilingual education nontraditional organizational structures gender inclusive theories diversity ethics political and policy context human resource management legal issues and collective bargaining The book is documented extensively throughout and grounded in the latest research and theory with suggestions for applying theory to practice reflecting cutting edge research and topical issues facing principals in schools today **Resources in Education** , 1997-07 Expanding Definitions of Giftedness Guadalupe Valdes, 2014-04-04 This book is about bilingual young people who have been selected by their families to carry out the hard work of interpreting and translating to mediate communication between themselves and the outside world between

minority and majority communities It examines the experiences of these young interpreters and the skills they develop in order to fulfill this role The authors purpose in this volume is to contribute to extending current definitions of gifted and talented by proposing and offering evidence that the young people who are selected to serve as family interpreters perform at remarkably high levels of accomplishment when compared with others of their age experience and environment and should thus clearly be included in the 1993 U S federal definition of giftedness They maintain that not only are these capabilities currently overlooked by existing assessment procedures but also that there is little understanding of the ways in which the unique talents of young interpreters might be nurtured and developed in academic settings A strong case is made that in order for such students to be identified as gifted on the basis of their bilingual abilities the field of gifted and talented education must embrace the concept that bilingualism is a strength The field must also make developing bilingualism a focus of programs designed to meet the needs of the increasingly multilingual student population in the United States The research this book reports part of a larger five year study of giftedness through linguistic and cultural lenses funded by OERI through the National Research Center on the Gifted and Talented was conducted by researchers whose background is very much outside the field of gifted education Rather their focus is on language working within the traditions of qualitative sociolinguistics Thus this book offers a unique approach to the exploration of giftedness It asks researchers and practitioners ordinarily accustomed to working with quantitative data to examine and make sense of detailed and rich analyses of students linguistic performance and argues that it is only by understanding the challenges of such bilingual interactions that the field of gifted and talented education can expand and reframe its vision of giftedness *Intersection of Service and Learning*

Gregory Thompson, 2013-04-01 This book on service learning provides a current view of service learning research in the second language classroom and practical applications for the acquisition of both cultural knowledge as well as the different language modalities This book helps in understanding how using service learning in the language classroom can facilitate language acquisition The author addresses many of the challenges faced by teachers in the second language classroom as they try to implement service learning programs in their curriculum Based on the research as well as the experience of the author and other practitioners in the field suggestions are given in each chapter as to how to maximize student learning and acquisition of specific aspects of a language as well as on the formation of successful programs and service learning experiences These suggestions are integrated into the individual chapters based on the focus of the unit This text shows how service learning allows students real world application of the language they are learning in the classroom This text discusses how service learning assists students in contextualizing their learning and seeing the reality of their field of study and the applicability of their language classes to settings that they encounter in their own communities Finally at all levels teachers professors and administrators are being asked to provide standards and assessments to demonstrate achievement and excellence in their different fields This text addresses how service learning aids students in meeting these proficiency

standards and helps them achieve many of the goals set forth by national and international foreign second language learning organizations *Library Services to Youth of Hispanic Heritage* Barbara Immroth, Kathleen de la Peña McCook, 2000-05-15

As the United States becomes ever more comfortable with recognizing the cultural diversity of the many groups that make up its population library services must seek to meet patrons needs as they are shaped and expressed by their cultural backgrounds This goal is particularly important for youth library services For young people of Hispanic heritage library services attuned to their specific needs and interests are crucial Many librarians struggle with how to properly create and maintain library programs and collections that are suitable to the needs of Hispanic youth In this series of essays prepared for the Trejo Foster Foundation for Hispanic Library Education Fourth National Institute national leaders in librarianship present their insights about how best to meet the needs of young Hispanic library patrons The text is introduced by the editors and the essays are arranged in parts Programs Collections Planning and Evaluating Bibliographical Resources and For the Future Information about the contributors and an index conclude the volume **Achieving Excellence** Frances A.
