Discovering Scientist Within Research Psychology:

Discovering the Scientist Within Gary W. Lewandowski, Jr., Natalie J. Ciarocco, David B Strohmets, 2015-12-03

Discovering the Scientist Within offers an utterly unique approach to the research methods course. Rather than taking students through statistical methods one at a time, the authors provide a series of realistic and engaging case studies with each design focused chapter presenting a single study start to finish.

Discovering the Scientist Within Gary

Lewandowski, Natalie Ciarocco, David Strohmets, 2019-02-07. Discovering the Scientist Within is the only book on the market that teaches students about research methods using a case study approach. All the design focused chapters present students with a single study described from start to finish. Chapters start by asking students to consider a scenario and then walk them through the steps of the study: formulating a research question, performing a literature review, constructing a data collection method, considering ethics, refining the method, gathering data, understanding and reporting the statistical results. Students come away with a practical understanding of the research process and useful practice in the basic steps that comprise all studies. The book can also be purchased with the breakthrough online resource LaunchPad, which offers innovative media content curated and organized for easy assignability. LaunchPad's intuitive interface presents quizzing, flashcards, animations, and much more to make learning actively engaging.

Version for Discovering the Scientist Within Gary W. Lewandowski, Jr., Natalie J. Ciarocco, David B Strohmets, 2018-10-24

Discovering the Scientist Within is the only book on the market that teaches students about research methods using a case study approach. All the design focused chapters present students with a single study described from start to finish. The chapter starts by asking students to consider a scenario and then walks them through the steps of the study: formulating a research question, performing a literature review, constructing a data collection method, considering ethics, refining the method, gathering data, understanding the statistical results, and reporting the results in APA style. Students come away with a practical understanding of the research process and useful practice in the basic steps that comprise all studies. The book also has excellent pedagogy, starting with clear Learning Outcomes at the beginning of each chapter, Your Turn assessments at the end of each section and end of chapter, Review Questions, and Applying What You've Learned activities. As part of their class projects, students are often asked to run some statistics and write in APA style. This text has ample support for both, including Appendices on both topics as well as in chapter material modeling writing and reporting in APA style. Best of all, the book comes integrated with new Research in Action activities from the same author team. These activities extend the core mission of the book by putting students in the role of a researcher and simulating the kinds of decisions they would face in

conceptualizing and executing a study Each chapter includes an activity a few chapters have more than one and the activities are called out in the chapter The new edition features coverage of fake news as well as Our Research Plan at a Glance a summary of the study featured in each chapter The book is also available in a LaunchPad course for the first time Students will have access to the full eBook the LearningCurve adaptive quizzing system the Research in Action activities and other resources This book also comes with an unprecedented set of instructor supplements many of them prepared by the authors themselves These include a full instructor's manual including supplemental examples for each chapter suggestions for in class activities and demonstrations lab group project ideas a feature designed to enhance psychological information literacy and suggestions for using end of chapter materials Instructors also get access to unique PowerPoint slide decks that incorporate the same active learning and hands on approach as the textbook Chapter PowerPoint slides include additional examples discussion questions demonstrations and activities built right into the presentation to help bring the material to life For design chapters they provide two sets of PowerPoint slides one set that incorporates the chapter's research question and a more traditional set that focuses on key concepts

Loose-leaf Version for Discovering the Scientist Within Gary W. Lewandowski, Jr., Natalie J. Ciarocco, David B. Strohmetz, 2015-12-11 Discovering the Scientist Within offers an utterly unique approach to the research methods course Rather than taking students through statistical methods one at a time the authors provide a series of realistic and engaging case studies with each design focused chapter presenting a single study start to finish These chapters each with fully integrated online activities and resources in LaunchPad Solo ask students to consider a specific scenario then work through the essential steps of the study formulate a research question review the literature construct a data collection method consider ethics refine the method gather data interpret statistical results report the results in APA style With this hands on interactive format students develop a better understanding of the way professional researchers work and invaluable experience in the basic steps that comprise all studies
