Dirt Track Auto Racing 1919 1941 A Pictorial History:

Dirt Track Auto Racing, 1919-1941 Don Radbruch, 2015-03-07 Prior to World War I auto racing featured expensive machines and teams financed by auto factories The teams toured the country and most of the races were held in large cities so the vast majority of Americans never saw a race All this changed after World War I though and in the 1920s and 1930s there were approximately 1 000 dirt tracks in the United States and Canada The dirt tracks offered small time racing little prize money and minimal publicity but people loved it This pictorial history documents dirt track racing with what are today called sprint cars around the United States from 1919 to 1941 Information on dirt track racing in Canada during this time is also provided Regionally divided chapters detail the drivers tracks and specific races of each area of the country Some of the drivers went on to win fame and fortune while others faded into obscurity Tracks included well known facilities as well as out of the way sites few people had ever heard of The cars ranged from state of the art machines to the more common home built specials based on Model T or Model A Ford parts Taken together the drivers tracks and races of this era were instrumental in making auto racing the popular sport it is today

The Early Laps of Stock Car Racing Betty Boles Ellison, 2014-09-22 The first organized sanctioned American stock car race took place in 1908 on a road course around Briarcliff New York staged by one of America s early speed maven s William K Vanderbilt Jr A veteran of the early Ormond Daytona Beach speed trials Vanderbilt brought the Grand Prize races to Savannah Georgia the same year What began as a rich man s sport eventually became the working man s sport finding a home in the South with the infusion of moonshiners and their souped up cars Based in large part on statements of drivers car owners and others garnered from archived newspaper articles this history details the development of stock car racing into a megasport chronicling each season through 1974 It examines the National Association for Stock Car Automobile Racing s 1948 incorporation documents and how they differ from the agreements adopted at NASCAR s organization meeting two months earlier The meeting s participants soon realized that their sport was actually owned by William H G Bill France and its consequential growth turned his family into billionaires The book traces the transition from dirt to asphalt to superspeedways the painfully slow advance of safety measures and the shadowy economics of the sport

Mad for Speed Elsa A. Nystrom, 2013-06-13 This book covers Joan Newton Cuneo s life and her roles from 1905 to 1915 as the premier female racer in the United States and spokeswoman for women drivers and good roads Beginning with her family history and marriage to Andrew Cuneo it traces her life in New York society the birth of her children and Joan s growing interest in automobile touring and racing and partnership with Louis Disbrow her racing mechanic The book covers Joan s experiences in three Glidden Tours including her notes on the 1907 tour her first races and her rivals It also looks at the growth and change of automobile culture and the battles for control of racing among the American Automobile Association the Automobile Club of America and the American Automobile Manufacturers Association which ended in banishing women racers shortly after Joan s greatest racing victories at New Orleans in 1909 The book then

Stewart, 2021-03-12 Drawing on newspaper accounts college yearbooks and the recollections of veterans this book examines the impact of World War I on sports in the U S As young men entered the military in large numbers many colleges initially considered suspending athletics but soon turned to the idea of using sports to build morale and physical readiness Recruits mostly in their twenties ended up playing more baseball and football than they would have in peacetime Though most college athletes volunteered for military duty others replaced them so that the reduction of competition was not severe Pugilism gained participants as several million men learned how to box **Daredevil at the Wheel** Tony St. Clair, 2025-03-04 On Fourth of July weekend in 1924 Marion Martins flies past some of the best race car drivers of her time and takes home two trophies from the famous North Shore racetrack in Chicago In 1926 on the beaches of Daytona Florida Joan LaCosta breaks a world speed record at 145 miles per hour But Martins and LaCosta never face one another on the close knit circuit of early American auto racing That's because they are just two of the identities adopted by the elusive woman born Marion Carver By the late 1920s this enigmatic woman became a household name in auto racing several household names in fact though she'd be best known as Joan LaCosta Adopting and discarding personas almost as often as she changes tires LaCosta defies death shuns social norms and keeps her competition in the rearview mirror While driving as fast as she can away from a complicated past she survives violent wrecks race collisions and onboard fires in front of sell out crowds But fame danger and failed relationships take their toll In 1929 as the Great Depression looms LaCosta broke and broken commits to one last daring stunt the attempted robbery of a Chicago high society matron in the city's most glamorous high rise Coverage of the dramatic trial sells out papers from coast to coast and after fame turns to infamy LaCosta sheds her identity one last time and disappears from public view Nebraska History Addison Erwin Sheldon, James Lee Sellers, James C.
