

In the cyberpunk future, the Worlds Welfare Work Association is an important weapon against crime, and 3WA operatives Kei and Yuri — the Lovely Angels — are their best, famous for always getting their man.

Unfortunately, they also have a reputation for catastrophe as in the execution of their duties they accidentally level cities, continents, and even planets. They're always cleared of responsibility, but they've earned a new nickname — *The Dirty Pair*.

Now they have an assignment on the orbital habitat Kalevela — to stop industrial terrorists from detonating a powerful gravity bomb. At stake is the colony's survival. Everything should be a breeze — if they can just get over their streak of bad luck....
