Disability International Development Towards Inclusive Global Health:

Disability & International Development Malcolm MacLachlan, Leslie Swartz, 2009-07-21 One of the greatest challenges facing modern global health is how to include the most marginalized and impoverished people in international efforts to promote social and economic development In Disability and International Development disability rights are situated within the broader context of global health and the need for much greater inter sector collaboration Reports from a broad cross section of low and middle income countries locales as diverse as Zimbabwe Bolivia Kyrgyzstan and Papua New Guinea move beyond surface discussions of what is working and what shows promise to discuss political and governance contexts the roles of disabled persons in research by outsiders concurrent struggles e g women s or children s rights and instructive inroads made by community activists and national Disabled People s Organizations The results are provocative and offer new lenses for viewing both the issues and the populations they affect Each of the book s chapters spotlights a topic as representative of the enormity and immediacy of challenges to inclusive global health including The impact of international human rights law on domestic law and local traditions The effect of failed states on the lives of people with disabilities Empowerment and advocacy disability organizations and movements HIV AIDS interventions with disabled persons Assistive technologies in low income countries Strategies for improving the lives of children with disabilities Cross disciplinary as well as cross cultural Disability and International Development will attract a wide audience of professionals in rehabilitation social welfare and human rights governmental and non governmental organizations and disabled people s organizations researchers and practitioners It will also be relevant to those working in health and welfare administration health policy international aid and development and human rights In addition graduate students in disability studies public and global health and international development should find this an important guide to the future of these fields **Disability and International**

Development David Copley, 2023-04-20 Disability and International Development provides a comprehensive overview of the key themes in the field of disability and development including issues around identity poverty disability rights education health livelihoods disaster recovery and approaches to researching disability As disability becomes increasingly prominent within the international development agenda the need for governments and development actors to have a basic understanding of disability issues as they seek to support disabled people to access their rights to full participation in society has never been more acute Drawing on a range of examples taken from around the world this book introduces readers to the key topics and theories surrounding disability and development The second edition of this popular textbook includes increased coverage of environmental accessibility intersectionality and reflections on the disproportionate impact of the COVID 19 pandemic on disabled people and the prospects for change in a post pandemic environment Written in an accessible and engaging style to suit both students and practitioners the book includes a wide range of reflection exercises discussion questions and further reading suggestions making it the perfect introduction to disability and international

development Disability and Poverty Arne H. Eide, Benedicte Ingstad, 2011-05-31 Available Open Access under CC BY NC licence This book is about being disabled and being poor and the social cultural and political processes that link these two aspects of living Environmental barriers limited access to services and discriminatory attitudes and practice are among key elements that drive disabled people into poverty and keep them there Disability and poverty explores the lived realities of people with disabilities from across the developing world and examines how the coping strategies of individuals and families emerge in different contexts Religion, Disability, and Sustainable Development in Africa Chioma Ohajunwa, Kudakwashe 'AK' Dube, Ezra Chitando, 2025-02-14 This book investigates the interplay between disability and religion in Africa and what this means in the context of the Sustainable Development Goals The importance of meeting the needs of people with disabilities is highlighted specifically in several Sustainable Development Goals as well as being emphasised as a cross cutting issue across all the goals Over 1 billion people are estimated to be living with disabilities and 80% of this population live in the Global South many within Africa This book argues that within this context religion must be considered as people with disabilities often turn to religion for solace in confronting the daily struggles and pains that they face Drawing on multiple disciplinary lenses this book reflects on how traditional indigenous Abrahamic and other African minority religions and philosophies interact with disability and how this relates to the Sustainable Development Goals The book demonstrates how religions in Africa conceptualise imagine or re imagine disability in the context of key themes such as gender ecological justice health poverty education employment entrepreneurship and migration Overall the book invites researchers from across the social sciences to consider how African religious theological and philosophical ideas can help towards the inclusion of people with disabilities in the 2030 development agenda in Africa **Disability in the Global Sport Arena** Jill M. Le Clair, 2013-09-13 Sport is often at the centre of battles for rights to inclusion linked to class race and gender and this book explores struggles centred on disability in different cultural settings in Europe North America Africa Asia and Oceania It challenges oversights and assumptions about the normal body and describes how individual and organizational transformations can occur through sport The abilities of a person are recognised and placed centre stage instead of the individual being forgotten excluded or placed at the margins simply because they have a disability National regional and global change is part of the shift to the rights based approach reflected in the 2006 UN Convention on the Rights of Persons with Disabilities Making sport inclusive affects the accessibility of facilities funding the media policies programs organisations sponsors and spectators and at the same time changes the cultural values of the wider society It also raises issues about competition access and eligibility for different and technologically enhanced cyborg bodies and for those most socially disadvantaged Addressing these questions which ultimately touch on the real meaning of sport can lead to profound changes in people's attitudes and how sport is organized locally and globally Growth in the influential global organisations of the Paralympic Games Special Olympics and Deaflympics is examined as is the approach to disability in sport in both

advantaged and resource poor countries The embodied lives of persons with disabilities are explored utilizing new theoretical models perspectives and approaches This book was previously published as a special issue of Sport in Society **The Professional Practice of Rehabilitation Counseling** Dennis R.
