*God Like Powers and Abilities* Martin K. Ettington, What are God Like Powers Abilities These are the abilities of the human spirit which are supposed to be impossible but which really exist The abilities and powers reviewed in this book include Telepathy Psychokinesis Levitation Invisibility Invulnerability Teleportation Creating your future Prophecy Omniscience and much more Why a book on this subject I ve read about these abilities over the years in many different books and articles as well as my own experiences and thought that others might want to learn about them in one organized encyclopedia of the subject Why is this book worthwhile This book will help the reader understand what is the basis for these powers before going into a full review of each one Like most of my books I take the reader through some background material before I get into the meat of the subject In this case we start by reviewing the original source of God Like abilities The Yoga Sutras of Patanjali and how these abilities and powers work Then I provide an introduction to meditation and stillness practices and how they help the seeker to get in touch with their own spirit After that we proceed into a discussion of the vital forces or prana the energy body and what that

energy is used for What will I learn about these Powers and Abilities In each of the chapters on individual powers and abilities I start by explaining what the ability is and how it has been used in the past Then some historical and or modern documented experiences of the ability or power is given Finally I provide exercises and practices to learn these abilities for yourself I m not going to claim that anyone can learn these abilities and powers right away but a clear path is provided on how to get there Reference materials to other books and sources which can help you learn more are also provided This includes links in the electronic versions of the book and a detailed bibliography or sources
