Catholic Life in the Church of England Simon Cuff, 2025-04-24 The Catholic tradition offers a rich and varied resource for the Church of England to draw upon Far from being the preserve of one discrete corner of the national church it offers instead an abundant seam of theology practice and spirituality which is a gift to the whole body of Christ First presented as a series of study days held at St Peter de Beauvoir Town North London the contributions in this book explore the richness and diversity of the Anglo Catholic tradition Chapters reflect on how the tradition can speak into all aspects of life from community to prayer worship to marriage celibacy to justice With essays from Rowan Williams Morwenna Ludlow Michael Leyden Ben Kerridge Mitzi James Jack Noble Sally Jones and Charlie Bell and homilies from Peter Groves Joanne Grenfell and Nicolas Stebbing **Tending the Holy** Norvene Vest, 2003-10 Essays that explore spiritual direction from a variety of faith and cultural perspectives **Vocation and the Politics of Work** Jeffrey Scholes, 2013-03-08 Since Martin Luther vocations or callings have had a close relationship with daily work It is a give and take relationship in which the meaning of a vocation typically negotiates with the kinds of work available and vice versa at any given time While vocation language still has currency in Western culture today s predominant meaning of vocation has little to do with the actual work performed on a job Jeffrey Scholes contends that recent theological treatments of the Protestant concept of vocation both academic and popular often unwittingly collude with consumer culture to circulate a concept of vocation that is detached from the material conditions of work The result is a consumer friendly vocation that is rendered impotent to inform and if necessary challenge the political norms of the workplace For example he classifies Rick Warren s concept of purpose in his best selling book The Purpose Driven Life as a functional equivalent of vocation that acts in this way Other popular uses of vocation along with insights culled from traditional theology and consumer culture studies help Scholes reveal the current state of vocations in the West Using recent scholarship in the field of political theology he argues that resisting commodification is a possibility and a prerequisite for a political vocation if it is at all able to engage the norms that regulate and undermine the pursuit of justice in many modern workplaces Christian Faith and Christian Learning Clare Watkins, James Butler, 2025-07-31 Following a critical analysis of the pedagogical theology and practice of Christian learning this book develops a radical alternative account of faith learning Recognising the ways in which institutionally anxious churches are turning to processes of education and discipling it takes the reader through a theological action research journey to offer a practical theological

response to the question of how Christian faith is learnt and handed on in ways that really make a difference Through close engagement with the practicalities of one declining denomination British Methodism the authors offer a distinctive vision of Christian learning and enable fresh thinking and practice There is a call for a move beyond educational courses towards a more profound engagement with the complexities of real life as not only the place but the matter of faith learning Theologically the book offers a vision which pursues questions of divine and human agency the work of the Spirit in learning the role of normative tradition and the important place of Christian lay people and their daily lives in learning Ultimately it seeks to give substance to a fresh concept of faith learning which is holistic integrative and inductively achieved and finds its fulfilment in lives lived in faith hope and love
