Fantasies of Femininity Jane M. Ussher,1997 In *Fantasies of Femininity* Jane Ussher focuses on unraveling the contradictory visions of feminine sexuality the fact that representations of the definition of woman seethe with sexuality yet for centuries women have been condemned for exploring their own sexual desires In her quest for the sources of feminine representation Ussher interviewed dozens of women as well as some men and combed popular media from Seventeen to Cosmopolitan and Dallas to Donahue to identify what shapes women s symbolic images of sex and femininity Ussher argues that women have effectively resisted and subverted these archetypal fantasies of femininity and in the process of so doing reframed the very boundaries of sex In this way she exposes as myth much of what we think we know about woman and about sex
