Duodopaa S Guide For Health Care Givers:

Parkinson's Disease: An Interdisciplinary Guide to Management Fiona Lindop, Rob Skelly, 2021-11-17 Evidence shows that a multidisciplinary approach to Parkinson's care provides better patient outcomes and is more cost effective. This new title provides a practical guide to this approach with the perspective of the person living with Parkinson's firmly at its core. Written by experts in their field and firmly grounded in up to date evidence, Parkinson's Disease: A Multidisciplinary Guide to Management addresses multidisciplinary intervention through the various stages of disease rather than by discipline. It covers all aspects of care from pharmacological management to non drug interventions that are helpful for Parkinson's symptoms. This book is unique in its holistic approach to the patient and their family and will help all members of the team to implement a biopsychosocial model of health that puts the person with Parkinson's at the centre of care. Clinician led content provides perspectives of different members of the interdisciplinary team including medics, nurses, physiotherapists, occupational therapists and psychologists. Includes practical advice and top tips to enhance management of common problems. Includes best practice for Parkinson's as well as Atypical Parkinsonian Syndromes, Progressive Supranuclear Palsy, Corticobasal Syndrome and Multiple System Atrophy. Includes management of falls and bone health, palliative care, management of inpatients. Provides practical advice on delivering services remotely by telephone or video.

Geriatric Medicine and Elderly Care Claire G. Nicholl, K. Jane Wilson, Shaun D'Souza, 2025-02-10 GERIATRIC MEDICINE AND ELDERLY CARE Lecture Notes Ninth Edition An essential resource for meeting the needs of an ageing patient population. As the global population ages, geriatric medicine is steadily becoming one of the most important areas of medical research and care. Healthcare systems in developed countries are adapting to this shift in the population and doctors are finding that a larger and larger proportion of their patients are older. Current medical training often does not include adequate coverage of geriatric medicine and students may well find they require more extensive resources for meeting older patients' needs. Lecture Notes: Geriatric Medicine and Elderly Care meets this need with a set of comprehensive but straightforward introductions to the foundational concepts of geriatric medicine. Combining a user friendly format with extensive high quality figures and illustrations, it is a must have resource for medical students looking to deepen their knowledge of a widening area of essential care. Now thoroughly revised and updated to reflect the latest research and medical knowledge of ageing and elder care, this is an essential contribution to the popular Lecture Notes series. Readers of the ninth edition of Lecture Notes: Geriatric Medicine and Elderly Care will also find new chapters on the science of ageing including immunosenescence and rejuvenation research and geriatric oncology. Full coverage of the British Geriatrics Society and European undergraduate curriculums. A companion website with appendices, key revision points for each chapter and further readings. Lecture Notes: Geriatric Medicine and Elderly Care is ideal for medical students and Foundation Year doctors in most specialties who are treating frail older people. It also provides a starting point for revision for higher specialty examinations in geriatric medicine.
