player's library as their only endgame book and equally good at preparing a serious student for many other fine endgame books not forgetting of course the storied father of this volume Dvoretsky's Endgame Manual If you are serious about studying endgames have a limited amount of time or are simply looking for a convenient way to improve your play in endgames the FastTrack Edition may just be the book you have been looking for **Dvoretsky's Endgame Manual** Mark Izrailevič Dvoretskii, 2008 A modern classic The first edition of Dvoretsky's Endgame Manual was immediately recognized by novice and master alike as one of the best books ever published on the endgame This second edition is revised and enlarged now over 400 pages covering all *Dvoretsky's Endgame Manual* Mark Dvoretsky, 2021-09-15 The FastTrack to Endgame Expertise Since it first appeared in 2003 Dvoretsky's Endgame Manual has been acclaimed as the best single volume ever written on the endgame With staggering depth and accuracy it clearly reveals the secrets of this most important stage of the game One of the unique characteristics of the Endgame Manual has been the highlighting of text considered to be essential to the understanding of endgame theory The late great trainer Mark Dvoretsky carefully selected the text to be highlighted so that players at all levels could benefit from this monumental work Now in its fifth edition the 440 page manual may seem somewhat intimidating to some readers With that in mind German grandmaster Karsten Müller and American grandmaster Alex Fishbein both recognized endgame experts in their own right have collected the highlighted text from the fifth edition and presented it so that the core concepts might be more readily available The result is Dvoretsky's Endgame Manual FastTrack Edition As noted by Australian grandmaster Ian Rogers in his foreword I am very pleased that Dvoretsky's Endgame Manual FastTrack Edition has come along It is eminently suitable to sit in an amateur player's library as their only endgame book and equally good at preparing a serious student for many other fine endgame books not forgetting of course the storied father of this volume Dvoretsky's Endgame Manual If you are serious about studying endgames have a limited amount of time or are simply looking for a convenient way to improve your play in endgames the FastTrack Edition may just be the book you have been looking for **Tragicomedy in the Endgame** Mark Dvoretsky, 2011 The Key Concepts of Chess Endings In 2003 when it was released Dvoretsky's Endgame Manual became an instant classic Now the chess instructor extraordinaire offers an introduction to the fascinating world of chess endings This book is designed to highlight the key concepts of the most common chess endgames and will prove quite instructive to chessplayers of all levels Topics include The King in the Endgame Pawn play Zugzwang Saving Methods Tactics in the Endgame Piece Maneuvering Piece Exchanges Technique and much more The author has countless practical suggestions for improving your endgame play in this era of rapid time controls so that you don't end up drowning in the ocean of endgame theory Let Mark Dvoretsky help you win more games as he examines some elementary endgame errors from master play and shows you how to avoid making the same mistakes *Secrets of Endgame Technique* Mark Dvoretsky, Artur Yusupov, 2008 Proper technique is central to executing successful endgame play This instructional guide provides information on how to study the endgame and analyze endgame

Understanding Minor Piece Endgames Karsten Muller,Yakov Konoval,2018-12-19 Understanding Mastery Knowing the abilities and limitations of the minor pieces is very valuable for mastering the secrets of the royal game and this can be studied best in the endgame It is essential to understand the management of the long range bishop albeit confined to one color as well as the short range ubiquitous knight This book is the second volume in the authors acclaimed Understanding Endgames series It follows a dual philosophy like their previous work Understanding Rook Endgames It deals with seven piece minor piece endings in some detail These endgames are often so deep that pre tablebase analysis almost always contained errors Many new discoveries are revealed here In addition the authors emphasize the important five and six piece endings every club player should know But to really understand minor piece endings these theoretical positions are of course not enough Sub chapters on the principles of each material configuration have therefore been added Understanding Minor Piece Endgames will take you a long way to mastering these important endings Having had the pleasure to preview this book I can tell you that you are in for a treat Careful study of this book will benefit your chess immensely From the Foreword by GM Jacob Aagaard
