Motor Control Anne Shumway-Cook, Marjorie H. Woollacott, 2007. Motor Control is the only text to bridge the gap between current motor control research and its applications to clinical practice. The text prepares therapists to examine and treat patients with problems related to balance, mobility and upper extremity function based on the best available evidence supporting clinical practice. The Third Edition features a new two color design with an updated art program. This edition provides the latest research findings and their clinical applications in postural control, mobility and upper extremity function. Drawings, charts, tables and photographs are also included to clarify postural control and functional mobility and laboratory activities and case studies are provided to reinforce key concepts.
