Exploring Educational Excellence Reviews

Sue Myburgh, Anna Maria Tammaro

Exploring Educational Excellence Reviews:

Exploring Education Alan R. Sadovnik, Peter Cookson, Jr., Susan Semel, Ryan Coughlan, 2017-10-10 This much anticipated fifth edition of *Exploring Education* offers an alternative to traditional foundations texts by combining a point of view analysis with primary source readings. Pre and in service teachers will find a solid introduction to the foundations disciplines: history, philosophy, politics, and sociology of education and their application to educational issues including school organization and teaching, curriculum and pedagogic practices, education and inequality, and school reform and improvement. This edition features substantive updates including additions to the discussion of neo liberal educational policy, recent debates about teacher diversity, updated data and research, and new selections of historical and contemporary readings. At a time when foundations of education are marginalized in many teacher education programs and teacher education reform pushes scripted approaches to curriculum and instruction, *Exploring Education* helps teachers to think critically about the what and why behind the most pressing issues in contemporary education.

Exploring Education Studies Vivienne Walkup, 2013-11-04 *Exploring Education Studies* is a rich and multi layered investigation of the world of education. Although aimed at Education Studies courses, the book's thematic approach also makes it an excellent general introduction to education. Building around four central themes: psychology, sociology, current policy, and global education, the authors' lively discussions capture the essence of this diverse subject area.

In search of educational excellence in the nation's capital United States. Congress. House. Committee on Government Reform, 2003

Exploring Education for Digital Librarians Sue Myburgh, Anna Maria Tammara, 2013-04-17 *Exploring Education for Digital Librarians* provides a refreshing perspective on the discipline and profession of Library and Information Science (LIS) with a focus on preparing students for careers as librarians who can deal with present and future digital information environments. A re examination of the knowledge base of the field combined with a proposed theoretical structure for LIS provides the basis for this work which also examines competencies for practice as well as some of the international changes in the nature of higher education. The authors finally suggest a model that could be used internationally to educate librarians for their new roles and social responsibilities in a digitised networked world. The twelve chapters of this book cover key issues in education for digital librarians including the necessity of regenerating the profession, current contexts, previous research on education for digital librarians, understanding the dimensions of the discipline and profession of librarianship, and the distinctions between them, the social purpose of librarianship as a profession, and the theoretical framework which supports the practice of the profession, a brief analysis of curriculum design, pedagogies and teaching methods, and a glimpse of the proactive and important future role of librarianship in society. Considers the ubiquitous misunderstanding that technology can replace libraries and librarians. Provides a theoretical view of the field which can contribute awareness of dimensions of the dilemmas which the discipline/profession currently faces. Presents a broad international perspective which provides a basis for a new model for LIS education.

Level Up! Exploring Gamification's Impact on Research and Innovation Tibor Guzsvinecz, 2024-08-21 Level Up Exploring Gamification's Impact on Research and Innovation explores the transformative power of gamification in various fields. This edited book shows how game design elements when integrated into non gaming contexts can revolutionize education, health care, luxury tourism, language learning, and more. Through a series of case studies and research, the book demonstrates the potential of gamification to enhance user engagement, improve knowledge retention, and foster interdisciplinary collaboration. Discover how AI powered simulations and interactive technologies are creating personalized learning experiences that adapt to individual needs, making education more effective and engaging. Explore the use of gamification in luxury tourism to elevate travel experiences, enhance customer loyalty, and deliver immersive, memorable journeys. Understand the advantages of mobile assisted language learning applications which use gamified elements to make language learning more accessible and enjoyable. The book also highlights the role of gamification in health care by showcasing how it can transform medical education by providing interactive and adaptive training environments. Learn about the efforts of the STEAME Teacher Facilitators Academy in promoting project based learning methodologies that prepare educators to lead innovative multidisciplinary classrooms. This book is an essential resource for scholars, educators, practitioners, and policymakers who are looking to harness the benefits of gamification. It offers insights and practical strategies for using game mechanics to address complex challenges, drive progress, and create impactful experiences. By embracing the principles of gamification, readers will be equipped to turn challenges into opportunities for growth and success, fostering a more connected, informed, and empowered society. Use this book to level up and unlock the full potential of gamification and innovation in your field.

Annual Review of Nursing Education, Volume 1, 2003 Kathleen T. Heinrich, PhD, RN, 2003 Marilyn H. Oermann, PhD, RN, FAAN, 2003-02-24 Interested in the latest trends in nursing education written by the nurse educators pioneering these innovations? Then welcome to the first volume of the Annual Review of Nursing Education. This Review focuses on these innovative practices of teaching. It describes educational strategies you can adapt to your own settings and is written for educators in associate baccalaureate and graduate nursing programs, staff development, and continuing education. The goal of the Review is to keep educators updated on recent innovations in nursing education across all settings.

OECD Review of Higher Education, Research and Innovation: Portugal OECD, 2019-02-21 Portugal aims to develop a more innovative, inclusive, and productive economy and to ensure that the ensuing benefits are widely distributed regionally and socially. This report assesses the extent to which Portugal's higher education, research, and innovation system is well configured to help.

Educational Review Nicholas Murray Butler, Frank Pierrepont Graves, 1898 Vols 19-34 include Bibliography of education for 1899-1906 compiled by James I Wyer and others.

Founding Mothers and Others A. Sadovnik, S. Semel, 2016-04-30 Interest in progressive education and feminist pedagogy has gained a significant following in current educational reform circles. Founding Mothers and Others

examines the female founders of progressive schools and other female educational leaders in the early twentieth century and their schools or educational movements All of the women led remarkable lives and their legacies are embedded in education today The book examines the lessons to be learned from their work and their lives The book also analyzes whether their leadership styles support contemporary feminist theories of leadership that argue women administrators tend to be more inclusive democratic and caring than male administrators Through an examination of these women this book looks critically at the ways in which the leaders administrative styles and behaviors lend support to feminist claims

International Perspectives on Educational Administration using Educational Inquiry Abdulrasheed Olowoselu, Areej ElSayary, 2024-08-02

This edited volume sets out the current issues that face educational administrative processes and resources across the globe and provides implication lead responses for how best to tackle new challenges that arise Featuring contributions and perspectives from the UAE Nigeria Malaysia Indonesia Portugal Spain Iran and the United States this diverse and truly international volume discusses the management of resources tasks and communication key to the smooth running of educational institutions Divided into four distinct parts the chapters examine educational administration from theoretical conceptual and empirical angles focusing on theories administrative procedures decision support systems and management techniques in educational administration as well as reward management and digital leadership This book bridges the gap in educational administration by showcasing new trends across many countries and examining the role of theory in the field using examples of classical and contemporary approaches systems theory leadership theory and theories of change and innovation Ultimately presenting a problem solving approach to the current educational administrative situation globally this volume will be of interest to researchers scholars and faculty members involved with education administration research educational administration theory and leadership Practitioners working on educational process improvement and organizational studies will also benefit from the volume

Critical Studies and the International Field of Indigenous Education Research Greg Vass, Melitta Hogarth, 2024-02-15 This book focuses on three broad and intertwined concerns in Indigenous education across several settler colonial settings such as Australia New Zealand and Canada Within these settler colonial contexts many Indigenous learners continue to be failed by education policies and practices while teaching and learning all too often concomitantly reproduce and maintain deficit perspectives and expectations from those in the wider community towards Indigenous Peoples The contributions presented in this book seek to interrupt this cycle in some way and share three broad and intertwined areas of focus Holistic and more than human view of the world and knowledge making practices Critical engagement with the ongoing legacies of colonial institutions practices and histories And efforts that seek to reveal and address social injustices inequities and discrimination The book highlights the work of scholars who are actively working to privilege Indigenous ways of working and or recognising the resilience of Indigenous peoples in all aspects of education Critical Studies and the International Field of Indigenous Education Research offers inspiration hope and practices

to learn from and with In doing so a wider community of researchers and professionals can draw on the ideas and strategies to help inform their efforts within the settings they work and live This book was originally published as a special issue of Critical Studies in Education **Educational Review** ,1894 Teaching in the Primary School Neil Kitson,Roger Merry,2002-09-11 It is now widely recognized that learners are more successful when they are active participants in the learning relationship This book offers a general introduction to primary education and child development using the learning relationship between teachers and children as its focus Divided into two parts the first looks at the child s contribution to the learning relationship and the second examines that of the teacher *Resources in Education* ,2001-10 *Foundation Years and Why They Matter* Stephen Leech,Sarah Hale,2024-11-07 Foundation Years and Why They Matter presents a selection of case studies illustrating the diversity of foundation year provision and delivering a compelling narrative about what foundation years are what they do how they do it and the impact they have **Developing and Implementing Teaching in Sensitive Subject and Topic Areas** William McGovern,Aidan Gillespie,Toby Brandon,Alison McInnes,2024-02-05 Rooted in actual practice this collected work identifies the best methodology for creating learning environments that feel both safe and critically stimulating for all involved *The Routledge Companion to Education* James Arthur,Andrew Peterson,2013-07-23 The Routledge Companion to Education presents the most comprehensive up to date guide available to the major topics and theories in education Forty specially commissioned chapters covering all aspects of education introduce you to the key thinkers events ideas research and issues that have shaped the field of education **Education and the Fantasies of Neoliberalism** Matthew Clarke,2021-11-29 Education and the Fantasies of Neoliberalism revitalizes conversations about the nature and purpose of education in a global context characterized by concerns about quality and equity in education reflecting wider economic and political anxieties around declining productivity and social inclusion The book illustrates how Lacanian psychoanalytic theory offers a conceptual vocabulary for exposing and critiquing the fantasmatic nature of policy and practice while foregrounding the tensions and contradictions they seek to conceal Specifically the book draws on ideas of lack fantasy and desire from Lacanian psychoanalytic theory to gain insights into the contentious but disavowed politics of reform in education The book builds on cutting edge work in political and psychoanalytic theory to offer unique insights that challenge and contest the simplistic and often trivializing readings of education in contemporary media and political debates Offering a novel perspective on education policy reform this book will be of great interest to academics researchers and post graduate students in the fields of philosophy of education and educational policy and politics Subject Guide to Books in Print ,1983
