This book guides clinicians in treating individuals with OCD through the use of exposure and ritual response prevention, one of the most effective and the most studied treatments for OCD. Designed to be used in conjunction with its companion patient workbook titled *Treating Your OCD with Exposure and Ritual Response Prevention Therapy*, this Therapist Guide includes supporting theoretical, historical, and research background information, diagnostic descriptions, differential diagnoses, session-by-session treatment outlines, case examples, sample dialogues, practice assignments, and tailored application to the vast variety of presentations and nuances of the disorder. It is an invaluable guide for clinicians in overcoming the barriers and difficulties that are part and parcel of every treatment. Exposure and ritual response prevention (EX/RP) is the best treatment we have for obsessive compulsive disorder. The Therapist Guide and Workbook by Foa, Yadin, and Lichner will do two very important things. The first is to make EX/RP much more available to people suffering from OCD. The second is to help ensure that the treatment that is made more available is a treatment that should really work. Michael R. Liebowitz, M.D., Professor of Clinical Psychiatry, Columbia University and Former Director, Anxiety Disorders Clinic, New York State Psychiatric Institute. This outstanding therapist manual, together with its accompanying client workbook, provides state-of-the-art tools for transforming the lives of people with OCD. H.
