What Greek philosopher thought writing would harm a student's memory? Was the poet Byron's daughter the first computer programmer? Who plays more video games, women over 18 or teenage boys? In *Alphabet to Internet: Media in Our Lives*, Irving Fang looks at each medium of communication through the centuries, asking not only what happened but also how society changed because of this new communication medium and how we are different as a result. Examining the impact of different media on a broad historical scale, from mass printing, the telegraph, film, the internet, and advertising, *Alphabet to Internet* takes us from the first scratches of writing and the origins of mail to today's video games, the widespread and daily use of smartphones, and the impact of social media in political uprisings across the globe. A timeline at the end of each chapter places events in perspective and allows students to pinpoint key moments in media history. Now in its third edition, *Alphabet to Internet* presents a lively, thoughtful, and accessible introduction to media history. **American Fun** John Beckman, 2014-02-04. Here is an animated and wonderfully engaging work of cultural history that lays out America's unruly past by describing the ways in which cutting loose has always been and still is an essential part of what it means to be an American. From the time the Pilgrims landed at Plymouth Rock, Americans have defied their stodgy rules and hierarchies with pranks, dances, stunts, and wild parties, shaping the national character in profound and lasting ways. In the nation's earlier eras, revelers flouted Puritans, Patriots pranked Redcoats, slaves lampooned masters, and forty-niners bucked the saddles of an increasingly uptight middle class. In the twentieth century, fun-loving Americans celebrated this heritage and pushed it even further: flappers, Barney Mugged in Petting Pantries, Yippies showered the New York Stock Exchange with dollar bills, and B-Boys invented hip-hop in a war zone in the Bronx. This is the surprising and revelatory history that John Beckman recounts in

Patterson, 2020-04-14 Finalist 2021 John Hope Franklin Prize given by the American Studies Association Seeking ways to understand video games beyond their imperial logics Patterson turns to erotics to re invigorate the potential passions and pleasures of play Video games vastly outpace all other mediums of entertainment in revenue and in global reach On the surface games do not appear ideological nor are they categorized as national products Instead they seem to reflect the open and uncontaminated reputation of information technology Video games are undeniably imperial products Their very existence has been conditioned upon the spread of militarized technology the exploitation of already existing labor and racial hierarchies in their manufacture and the utopian promises of digital technology Like literature and film before it video games have become the main artistic expression of empire today the open world empire formed through the routes of information technology and the violences of drone combat unending war and overseas massacres that occur with little scandal or protest Though often presented as purely technological feats video games are also artistic projects and as such they allow us an understanding of how war and imperial violence proceed under signs of openness transparency and digital utopia But the video game as Christopher B Patterson argues is also an inherently Asian commodity its hardware is assembled in Asia its most talented e sports players are of Asian origin Nintendo Sony and Sega have defined and dominated the genre Games draw on established discourses of Asia to provide an Asiatic space a playful sphere of racial otherness that straddles notions of the queer the exotic the bizarre and the erotic Thinking through games like Overwatch Call of Duty 4 Modern Warfare Shenmue II and Alien Isolation Patterson reads against empire by playing games erotically as players do seeing games as Asiatic playthings that afford new passions pleasures desires and attachments     **Historia Ludens** Alexander von Lünen, Katherine J.
