Copyright page **The Insider** William Kelbaugh, 2005-05-12 The Insider takes you where most people have never been or are likely to go. There is no other single book in the world with all the inside information on the details of buying and selling cars. It is without a doubt the most comprehensive source you'll find, covering the keys to dealer advertising, the tools and traps of selling, how to read, use, and understand window stickers, bump labels, and buyers guides, how to figure payments in seconds, how salesmen type, what kind of buyer you are, how salesmen are trained, how to negotiate fast and easy, and more. If it's not in here, it's not worth knowing. No longer does the experience of buying a car have to be only moderately better than going to the dentist. With The Insider, you'll save time and money and buy all your cars with confidence, because now you can work with salesmen instead of dealing with them. Full Upright and Locked Position: The Insider's Guide to Air Travel

Mark Gerchick, 2013-06-10 Sit back, relax, and enjoy the flight; our pilots still intone. But who are they kidding? Former FAA chief counsel and senior aviation policy official Mark Gerchick unravels the unseen forces and little-known facts that have reshaped our air travel experience since September 11, 2001. With wry humor and unique insight, Gerchick takes us past the jargon, technicalities, and all-is-well platitudes to expose the new normal of air travel: from the packed planes and myriad hassles of everyday flying to the alchemy of airfares, the airlines' endless nickel-and-dime, and the elusive hope of escape from steerage. We find out what pilots do in the cockpit, what's really worth worrying about when it comes to airline safety.

and why we get sick on planes Meanwhile Gerchick ponders the jarring disconnect between our quaint expectations of service with a smile and the grim reality of cramped seats no free lunch and watch yer knees With sympathy for both fliers and airlines Gerchick shows how the new business all business airline industry has finally learned to make money even in the face of crushing fuel costs and get millions of travelers where they re going every day safely and quickly From his singular vantage point as former aviation regulator and policymaker Gerchick gives us a straightforward insider s view of how hard it is for government to improve the traveler s lot by explaining the vagaries of consumer protection rules as well as the political realities and the economic forces at work While Gerchick offers reasons to hope for a better future in air travel he presents an unvarnished look at what we can expect good and bad when we take to the skies Some of it will reassure you some will make you cringe but all will open your eyes to what it means to fly today **SAS Insider** Clint Palmer,Robert
