Extremely Loud And Incredibly Close Quotes:

Trauma in Jonathan Safran Foer's "Extremely Loud and Incredibly Close" Michelle Klein, 2016-08-08 Seminar paper from the year 2015 in the subject English Language and Literature Studies Literature grade 2.0 University of Koblenz Landau Anglistik course 20th Century Novels language English abstract Trauma seems to me being an essential topic to discuss in school as everybody sooner or later has to deal with loss or already dealt with it in the past As every student can identify with this potential challenge it is important for them to get to know different ways of dealing with trauma Foer's story even reveals that coping with trauma is able to bring people from different races and ages together Even if people's trauma is caused by different events there will be a connection between these people Moreover it would be possible to teach this topic interdisciplinary and interdisciplinary in ethics or religious education classes As everyone could be affected by trauma I determined this topic for my planned lesson The reason for choosing the subtopics namely inventing and heavy boots referring to Oskar Grandfather Schell's aphasia and the doorknobs and finally suppressing and the feeling of being needed with regard to Grandmother Schell reveal concreteness for the main topic I decided to teach the topic by group work to facilitate the exchange of experiences without the danger to be exposed in front of the class I thought this is the best way as the students can talk about how they perceived the character and his or her ability to deal with the trauma they have gone through The team work is followed by a presentation and discussion of this work to ensure all students have reached the same level of knowledge Moreover it is important have the ability to emphasise with this character and change their perspectives or contribute their own experiences with loss to explain the others why somebody could show such behaviour I will analyse the topic by a characterisation following by a psychoanalytic approach For one it is important to get to know why people are behaving differently after experiencing loss and second it is illuminating for the students to become aware that trauma can be responsible for the person concerned being left with an altered personality The lesson I have planned relates to both characterisation and psychoanalytic approaches After the lesson the students should have general knowledge about trauma and its effects Furthermore it should be clear that trauma can only be overcome by going through two phases which build up upon each other

their background but an outcome of things self presentation As objects beings or existents present themselves in the present in our now they foster thing configurations that together compose the form of and essentially make the contemporary the present s cultural material signature as Moraru calls it To decipher this signature Flat Aesthetics provides a cross sectional reading of postmillennial American fiction Discussed are solely post 2000 works by writers who have also established themselves over the past two decades or so from Nicole Krauss Michael Chabon and Ben Lerner to Colson Whitehead and Emily St John Mandel Their output Moraru claims bears witness to the onset of a flat aesthetics in American letters after September 11 2001 Organized into five parts the books canvases objectual constellations of contemporaneity shaped by material dynamics of language museality and display spatiality zombification and thing rhetoric and post anthropocentric kinship
