Long ago when magic still roamed freely without restraint or purpose it delighted in the elements It flowed through them saturated them and then became aware of itself Faerie was born but within her and the elements was a seed of loneliness This seed grew and multiplied into the darker emotions When Faerie decided to create the fey to relieve her loneliness she separated those darker emotions from the elements so that the fey were born pure That s the story most fey tell about their creation but our creation that of the dark fey goes further You see we were those dark emotions which were so carelessly cut away from the other elements Faerie didn t even realize that the Darkness was an element until we threatened her very existence Then she saw what we needed physical form like that which had been given to every other element So we were finally created Twenty one dark sidhe each with the power of a dark emotion My name is Liatrix and my emotion is Shame It s all I ve ever known and even with the freedom of the flesh I can t seem to live beyond it I don t expect a lot from this life but I have desires just like everyone else Happiness safety love Simple things but I know they ll never be mine How can Shame coexist with happiness How can a thing of Darkness ever feel safe And how can I ever have love when the only man I want is

our king A Darker Element will take you into another side of the Godhunter's world Experience it all fresh from the perspective of a faerie whose life has just begun Go beyond the Godhunter with this first book in the spin off series and delve deeper into the realm of Faerie

**Godhunter** Amy Sumida, 2013 There are some things that really annoy Vervain Lavine Like when people call her Vivian Vervain's an herb look it up Or when people don't get her movie quotes Why doesn't anyone appreciate culture anymore But what really bothers her what gets her little witchy panties in a twist is when gods manipulate humans They're not even really gods just Atlanteans playing dress up Yeah that's right the gods are Atlanteans Basically a bunch of refugees who decided to take over It was a sweet deal for them at least back when we believed in them and all Not so much anymore Nowadays there ain't too many folks lining up at the altars to give their offerings and gods are suffering for it Without our sacrifices the gods don't have enough juice to keep living in the manner to which they've grown accustomed So they came up with a plan It was so easy actually All they had to do was get us to fight amongst ourselves go to war When our kind die they suck up the energy like a temperature resistant fat man drinking a milkshake line up Not such a bad idea and it's worked for quite awhile Up until Vervain found out Now don't get the wrong idea Vervain's no Laura Croft She can't bench press 200 lbs or shoot laser beams out of her eyes either She does have magic on her side though and a few little tricks up her sleeve or up her gloves rather So she's not completely defenseless and she'll do whatever she has to in order to end this threat of divine proportions Even if it means assassinating one god at a time Her greatest annoyance is yet to come though in the form of a gorgeous Viking God who swears he's on her side If she can keep her eyes off his leather pants long enough they might even stand half a chance This rest of this series is available on Amazon the second book Of Gods and Wolves is available as an ebook or paperback and more of the series is coming soon 7 so far so keep an eye out for them on Amazon
