W. Russell Neuman

Eyetracking Web Usability Kara Pernice:

Eyetracking Web Usability Jakob Nielsen, Kara Pernice, 2010-04-26 Eyetracking Web Usability is based on one of the largest studies of eyetracking usability in existence. Best-selling author Jakob Nielsen and coauthor Kara Pernice used rigorous usability methodology and eyetracking technology to analyze 15 million instances where users look at Web sites to understand how the human eyes interact with design. Their findings will help designers, software developers, writers, editors, product managers, and advertisers understand what people see or don't see when they look and why. With their comprehensive three-year study, the authors confirmed many known Web design conventions, and the book provides additional insights on those standards. They also discovered important new user behaviors that are revealed here for the first time. Using compelling eye gaze plots and heat maps, Nielsen and Pernice guide the reader through hundreds of examples of eye movements demonstrating why some designs work and others don't. They also provide valuable advice for page layout, navigation, menus, site elements, image selection, and advertising. This book is essential reading for anyone who is serious about doing business on the Web.

Mobile Usability Jakob Nielsen, Raluca Budiu, 2012-10-09 How do we create a satisfactory user experience when limited to a small device? This new guide focuses on usability for mobile devices, primarily smartphones and touchphones, and covers such topics as developing a mobile strategy, designing for small screens, writing for mobile usability, comparisons, and looking toward the future. The book includes 228 full-color illustrations to demonstrate the points. Based on expert reviews and international studies with participants ranging from students to early technology adopters and business people using websites on a variety of mobile devices, this guide offers a complete look at the landscape for a mobile world. Author Jakob Nielsen is considered one of the world's leading experts on Web usability. He is the author of numerous best-selling books, including *Prioritizing Web Usability* and the groundbreaking *Designing Web Usability*, which has sold more than 250,000 copies and has been translated in 22 languages.
