Ezekiel's Vision Accounts as Interrelated Narratives Janina Maria Hiebel, 2015-06-16. Ezekiel is one of the best structured books in the Old Testament. It is commonly recognized that the strongly interrelated vision accounts Ez 1 1 3 15 8 11 37 1 14 40 48 contribute greatly to this impression of unity. However, there is a marked lacuna in publications focusing on the vision accounts in Ezekiel as an interconnected text corpus. The present study combines redaction critical analysis with literary methods that are typically used in a synchronic approach. Drawing on the paradigm of Fortschreibung, it is the first to present a united redaction history that takes into account the growing interconnections and dependencies between the vision accounts. Building on these results, the second part follows the development of selected themes such as the relationships between characters, the roles of intermediate figures, and anthropological and theological implications throughout the stages of redaction. The study thus represents an important step towards an understanding of the complex redaction history of the book of Ezekiel and indeed of its theology. The combination of diachronic and synchronic methods makes it relevant for scholars of both directions and is itself a methodological statement.

Esther & Daniel (Brazos Theological Commentary on the Bible) Samuel Wells, George Sumner, 2013-07-01. The series volumes, written by leading theologians, encourage Christians to extend the vital roots of the ancient Christian tradition to our day. In this addition to the acclaimed series, two respected scholars offer a theological exegesis of Esther and Daniel. As with other volumes in the series, this book is ideal for those called to ministry, serving as a rich resource for preachers, teachers, students, and study groups.

Seeking the Welfare of the City Naomi Noguchi Reese, 2025-01-27 In the history of public theology, the Holy Spirit's role in creation has been underexplored. If the Holy Spirit is the agent of transformation in creation, why have so many theologians neglected the Spirit's activity in the context of public theology? One of the causes of such neglect derives from a long-held belief in dualism or its assumption. As a result, generally speaking, theologians have neglected the eschatological aspect of the Spirit's work over creation and instead have devoted much of their attention to the immanent spiritual aspect of the Spirit's work. Hence, a theology is needed that recaptures the eschatological aspect of the Spirit's work over creation. Colin E. Gunton's pneumatology, that is, trinitarianly formulated and eschatologically conceived, brings a fresh approach to public theology and moves us toward a full-bodied, holistic, and trinitarian public theology that takes into account the triune God. This study attempts to draw upon the resources uncovered in Gunton's pneumatology to outline applications for Christian engagement of the public square for the twenty-first century. The book concludes with criteria for discerning the Spirit's work in the public square to give us practical ways to see how the Spirit may be working in the public square for transformation.

Beyond Old and New Perspectives on Paul Chris Tilling, 2014-05-05 New Testament studies are witnessing many exciting developments. And Douglas Campbell's groundbreaking publications are an important contribution to future discussions relating to Paul. Familiar problems relating to justification, old and new perspectives, and much more besides, have been tackled in fresh and exciting ways, setting down challenge after challenge to all those involved in Pauline studies. Campbell's publications therefore demand serious engagement. This book seeks to facilitate academic engagement with Campbell's work in a unique way. It contains numerous chapters critiquing his proposals, while others summarize the key themes succinctly. But it also contains Campbell's own response to the reception of his work, allowing him space to outline how his thinking has developed. In so doing, this work allows readers to be drawn into a vitally important conversation. It is academic theology in the making and constitutes the cutting edge of Pauline studies.
