and New Capitalism in the Digital Age** E. Fisher,2010-03-15 This book explores the new terrain of network capitalism

capitalism Based on an extensive empirical analysis the book argues that contemporary technology discourse at one and the
same time promises more personal empowerment through network technology and legitimates a more privatized flexible and
precarious economic constellations Such discourse signals a new tradeoff in the political culture of capitalism from a
legitimation discourse which emphasizes the capacity of technology and technique to bring about social emancipation
through equality stability and security to a legitimization discourse which focuses on the capacity of technology to bring about
individual emancipation through individual empowerment authenticity creativity and cooperation Contrary to the prevailing
assumption that sees network technology as liberating from the rigidity and pitfalls of a stifling Fordist capitalism the book
