**American Exploration** John Logan Allen,1997-01-01 The third volume of North American Exploration covering 1784 to 1914 charts a dramatic shift in the purpose priorities and results of the exploration of North America As the nineteenth century opened exploration was still fostered by the growth of empire but by the 1830s commercial interests came to drive most exploratory ventures particularly through the fur trade By midcentury however as imperial rivalries lessened and the fur trade declined exploration was driven by the growing scientific spirit of the age although the science was often conducted in the service of a search for railroad routes or natural resources linked to military concerns A clear transition took place as the spirit of the Enlightenment gave way to economic imperatives and to the science of the post Darwinian age and exploration passed beyond discovery and geographical definition This volume explores the resultant beginnings of an understanding of the continent and its native peoples     **At the Abyss** Thomas Reed,2007-12-18 The Cold War was a fight to the death notes Thomas C Reed fought with bayonets napalm and high tech weaponry of every sort save one It was not fought with nuclear weapons With global powers now engaged in cataclysmic encounters there is no more important time for this essential epic account of the past half century the tense years when the world trembled At the Abyss Written by an author who rose from military officer to administration insider this is a vivid unvarnished view of America s fight against Communism from the end of WWII to the closing of the Strategic Air Command a work as full of human interest as history rich characters as bloody conflict Among the unforgettable figures who devised weaponry dictated policy or deviously spied and subverted Whittaker Chambers the translator whose book Witness started the hunt for bigger game Communists in our government Lavrenti Beria the head of the Soviet nuclear weapons program who apparently killed Joseph Stalin Col Ed Hall the leader of America s advanced missile system whose own brother was a Soviet spy Adm James Stockwell the prisoner of war and eventual vice presidential candidate who kept his terrible secret from the Vietnamese for eight long years Nancy Reagan the Queen of Hearts who was both loving wife and instigator of palace intrigue in her husband s White House From Eisenhower s decision to beat the Russians at their own game to the Missile Gap of the Kennedy Era to Reagan s vow to lean on the Soviets until they go broke all the pivotal events of the period are portrayed in new and stunning detail with information only someone on the front lines and in backrooms could know Yet At the Abyss is more than a riveting and comprehensive recounting It is a cautionary tale for our time a revelation of how those years came to be known as the Cold War not World War III     **Travel Magazine** ,1914     **Boys' Life** ,1971-10 Boys Life is the official youth magazine for the Boy Scouts of America Published since 1911 it contains a proven mix of news nature sports history fiction science comics and Scouting     **Within Our Gates** Alan Gevinson,1997 These volumes are endlessly absorbing as an excursion into cultural history and national memory Arthur Schlesinger Jr     **Book Review Digest** ,1995     **Distant Horizon** Gary Noy,1999-01-01 The West has figured in the American imagination under many guises as the last best place on earth a refuge an escape a land of opportunity but also as a place of conquest and failure Where Lewis and Clark saw great possibilities Native cultures found disappointment and loss

This collection presents the diverse and often contradictory accounts that make up the mosaic of the nineteenth century American West From Thomas Hart Benton s famous speech in the Senate when he argued that non white civilizations must fall before the western expansion of white Americans to Black Elk s story of a way of life lost on the frozen ground at Wounded Knee Gary Noy offers a representative sampling of the many Wests that historians have struggled to define for over a century Distant Horizon chronicles the dusty world of the cowboy the hard scrabble existence of the farmer and the settler and the miner s vision of golden glory It examines the independent nature of the explorer and mountain man and the sometimes heroic sometimes cruel existence of the soldier We hear the voices of those outside the mainstream of power women and Westerners of color and explore the most tragic element of Western history the confinement subjugation and extermination of Native Americans No other single volume provides as many readings on as many topics in the history of the American West
